FOR AMERICAN INDIAN AND ALASKA NATIVE YOUTH,

- On average, Native teens first use alcohol at the age of 14.
- Al/AN teens use marijuana and prescription drugs at twice the rate of the national average.
- Many Al/AN youth believe that their parents do not strongly disapprove of them drinking alcohol or smoking pot.

BUT THERE'S A LOT TO CELEBRATE!

RECENT RESEARCH SUGGESTS THAT:

- Just talking with your teen about drug and alcohol use early and often can give them greater self-control and the confidence to say "no" when pressured.
- More than 75% of Al/AN youths surveyed had not used drugs or alcohol in the past month.
- Al/ANs 12 and older were the least likely group of any race/ethnicity to currently use alcohol.

SO WHAT'S THE MESSAGE?

- Talk to your child about alcohol and drugs. If possible, start the conversation before they're in school but it's never too late.
- Make it clear that you strongly disapprove of underage smoking, drinking, or using any other drugs. Never let someone drive who has been drinking or using drugs.
- Set a good example. Live a drug and alcohol-free life.
- For additional help, go to www.weRnative.org
