

**JUST BECAUSE U DON'T SEE IT  
DOESN'T MEAN U DON'T HAVE IT.  
GET TESTED!**

- **Have you ever had sex without a condom?  
If so, you may have been exposed to chlamydia.**
- **Most people who have chlamydia have NO  
signs or symptoms, but they can still pass it on.  
Without proper treatment, chlamydia can cause  
serious complications.**
- **Don't Worry! Free, confidential chlamydia  
screening is available. A simple urine test can  
tell if you have chlamydia, and it is easily cured  
with antibiotics!**
