Resolution #12-03-05

"The Tobacco Regulation Awareness, Communication, and Education Program (U1A)"

WHEREAS, the Northwest Portland Area Indian Health Board (hereinafter "NPAIHB" or the "Board") was established in 1972 to assist Tribal governments to improve the health status and quality of life of Indian people; and

WHEREAS, the NPAIHB is a "tribal organization" as defined by the Indian Self-Determination and Education Assistance Act (P.L. 93-638 seq. et al) that represents forty-three federally recognized tribes in the states of Idaho, Oregon, and Washington; and

WHEREAS, in accordance with the definitions of the Indian Self-Determination and Education Assistance Act at 25 USCS § 450b, a tribal organization is recognized as a governing body of any Indian tribe and includes any legally established organization of Indians which is controlled, sanctioned, or chartered by such governing body or which is democratically elected by the adult members of the Indian community to be served by such organization and which includes the maximum participation of Indians in all phases of its activities; and

WHEREAS, the NPAIHB is dedicated to assisting and promoting the health needs and concerns of Indian people; and

WHEREAS, the primary goal of the NPAIHB is to improve the health and quality of life of its member Tribes; and

WHEREAS, in furtherance of this goal in 1997, NPAIHB established the Northwest Tribal Epidemiology Center (*EpiCenter*) in an effort to improve the quality of American Indian and Alaska Native (AI/AN) epidemiology data; and

WHEREAS, The *EpiCenter* has gained national recognition for developing and implementing many useful and innovative projects to improve the health and quality of life of Northwest tribes and has served as a national model for other Indian Health Service (IHS) areas to emulate in establishing their *EpiCenter* programs; and

WHEREAS, AI/AN youth 12-17 have the highest tobacco use rate (24%) and AI/AN women of childbearing ages also have the highest tobacco use rates (37%),

WHEREAS, the US Food and Drug Administration (FDA) has invited proposals that aim to promote understanding of the consequences of tobacco use, especially targeting youth and pregnant women; and

WHEREAS, a successful proposal for this FDA funding initiative would provide the capacity to develop a tobacco education campaign targeted for tribal communities; and

WHEREAS, the goals of this initiative are consistent with the goals and objectives of both the NPAIHB and the *EpiCenter*.

THEREFORE BE IT RESOLVED, that the NPAIHB endorses and supports an effort by the staff of the *EpiCenter*, under guidance of the Executive Director, to submit a grant application to the FDA requesting funding for the FDA initiative entitled "The Tobacco Regulation Awareness, Communication, and Education Program".

CERTIFICATION

NO. 12-03-05

The foregoing resolution was duly adopted at the regular session of the Northwest Portland Area Indian Health Board. A quorum being established; 30 for 0 against 0 abstain on April 19, 2011.
