NPAIHB Roster of Pending Federal Healthcare Regulations, Legislation, and Submitted Comments

9/28/2017

		<p>to handle sites that see non-tribal members. This is a significant issue because tribal providers are the ones providing health care services in these rural areas, therefore this barrier impacts the tribal health system.</p> <p>NPAIHB recommends that the RPMS EHR system should allow providers to be able to see the brand name and generic name of medications. Additionally, there is a need for better maneuvering of the medications that providers are able to view and interact with.</p>
