

Help Shape Health Reform in Oregon

The Oregon Health Authority is taking the next step in health reform, developing a plan to lower costs, increase access, and improve the quality of health care.

One of the key parts of the plan is the health insurance exchange, which will serve as a central marketplace to purchase health insurance available to all Oregonians.

Come learn more about the plan for health and health care improvements in Oregon and tell us how the health insurance exchange will work best for you!
