

Indian Health Service Office of Information Technology

Web-based Informational Sessions: Overview of ARRA Funding, EHR Certification, and Meaningful Use

The IHS Office of Information Technology (OIT) is conducting web-based informational sessions to discuss the funding IHS has received for improving information technology, the new requirements electronic health records (EHRs) must meet to be certified, and the new requirements providers and hospitals must meet to achieve meaningful use of a certified EHR to be eligible for Medicare and/or Medicaid incentive payments beginning in 2011. A question and answer session will follow each presentation.

Sessions are open to all, but registration is required. The course title is "Overview of Meaningful Use." Sessions are limited to 45 participants, so please select a session that is convenient for you to attend and register online as soon as possible at:
