SUBJECT: Final User Population Estimates — FY 2009

DEC 18 2009

Fiscal Year 2009 (FY) user population estimates are finalized and the official estimates have been included in the attached tables. These estimates are the result of a collaborative effort among the staff of the Office of Public Health Support (OPHS) Division of Program Statistics (DPS) at Headquarters, the Area Statistical Officers, the Office of Information Technology (OIT) National Patient Information Reporting System (NPIRS), and Area staff communicating with Tribes to reconcile and validate the data. Release of the final estimates follows Area review and consultation with the Tribes. These estimates were produced according to the established statistical concept of user population that has been used in prior years, i.e., an unduplicated count by residence of Indian registrants who have had a direct or contract inpatient, ambulatory, or dental encounter with the health system during the last three years.

The attached tables contain the final user population estimates (last column) and the data used in developing the estimates. Comments from the Areas were taken into account when finalizing the estimates. A description of the columns is also attached.

These user population estimates reflect the issues discussed in Dr. Grim's December 10, 2003, letter that user counts will be based on individually identifiable registration and encounter data received in NPIRS repositories in OIT Albuquerque. Any questions can be directed to Edna Paisano, Director, Division of Program Statistics, Office of Public Health Support, IHS Headquarters and Kirk Greenway, Senior Statistician, Patient Care Statistics, DPS, OPHS. They can be reached at (301) 443-1180 or by e-mail at edna.paisano@ihs.gov and kirk.greenway@ihs.gov.

I would like to thank everyone who contributed to the production of user population estimates while specifically recognizing the NPIRS staff whose outstanding work with Area staff and Headquarters DPS resolved technical system problems for several sites. Your combined diligence to the task and your dedication to American Indian and Alaska Native healthcare are very much appreciated.

Richard M. Church, Pharm. D.
Director

Description of the Table Columns in the FY 2009 User Population Table Revision

Column 1, Indian Registrants —

This is the total count of Indian registrants that were in the Indian Health Service (IHS) National Patient Information Reporting System (NPIRS) Patient Registration data base as of September 30, 2009. The registrants were tabulated by their service unit of residence.

A registrant is considered Indian if (1) the Tribe Code is designated as “Indian”; or (2) the Tribal designation is “unspecified”, and - the classification and/or the Indian blood quantum code is “Indian”.

Column 2, Active Indian Registrants —

This is the count of Indian Registrants in the NPIRS data base who had at least one direct or contract inpatient stay, ambulatory care visit or dental visit between October 1, 2006 and September 30, 2009.

Column 3, Indian User Population Estimate —

This is, in most cases, the same as the number of Active Indian Registrants shown in Column 2. The only exception occurs when there was a negotiated figure for a Tribe which has been receiving services from IHS for less than three years.

*Tribally Operated Service Unit

1/ Adjusted because of an agreed-upon percentage split of Delta County which is shared between two Eastern Michigan Service Unit Tribes (Sault Ste Marie and Little Traverse) and one Western Michigan Service Unit Tribe (Hannahville). Delta County is divided between the two service units by community in the UP1 and UP3 Tables. The three affected tribes receive credit for active users in Delta County regardless of which service unit their community of residence falls in. Eastern Michigan Service Unit tribes Little Traverse and Sault Ste Marie received credit for 43 (4.83%) and 736 (82.70%) of the active users in Delta County, respectively. The Western Michigan Service Unit Tribe, Hannahville, received credit for 111 (12.47%) of the active users in Delta County. This percent split resulted in 10 active users being moved from the Eastern Michigan Service Unit to the Western Michigan Service Unit.

2/ Add the following for Service Unit 00 Counties: 21 for Kalamazoo County, 33 for Newaygo County, 52 for Cheboygan County. Subtract 10 from Eastern Michigan for Western Michigan for Delta County -

3/ Added 14 to Red Lake Service Unit for users in Koochiching County listed elsewhere other than in Service Unit 18-32.

4/ Added 10 to Delta County because of a county split between Eastern and Western Michigan Service Unit Tribes - see footnotes 1/ and 2/ above. Added for Service Unit 00 County: 1 for Houghton County

5/ Added 2 to White Earth Service Unit for users in Becker County listed elsewhere other than in Service Unit 18-35
