

Memorandum

To: Delegates, Tribal Health Directors, and Tribal Chairs

From: Michelle Edwards, Grants Administrator

Date: March 5, 2010

RE: Monthly Funding Report

Enclosed is the March 2010 Monthly Funding Report. If you would like assistance with any of these announcements, please do not hesitate to contact Michelle Edwards at (503) 228-4185 ext. 274 or medwards@npaih.org.

Northwest Portland Area Indian Health Board
March Funding Report, 2010

Agency for Healthcare Research and Quality (AHRQ)

www.ahrq.gov/

PA-09-071 AHRQ Health Services Research Demonstration and Dissemination Grants (R18)

Due Date: February 5th, June 5th, and October 5th (Expires: January 8, 2012)

Amount: \$500,000 annually for up to 5 years (total costs)

Description: This Funding Opportunity Announcement (FOA) solicits Large Research Demonstration and Dissemination (R18) Projects, and expresses AHRQ portfolio priority areas of interest for these ongoing, extramural grants.

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PA-09-071.html>

PA-09-070 AHRQ Health Services Research Projects (R01)

Due Date: February 16th, June 16th, and October 16th (Expires: January 8, 2012)

Amount: \$500,000 annually for up to 5 years (total costs)

Description: This Funding Opportunity Announcement (FOA) solicits Large Research (R01) Projects, and expresses AHRQ portfolio priority areas of interest for ongoing extramural health services research, demonstration, dissemination, and evaluation grants.

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PA-09-070.html>

PAR-08-268 Small Research Grant to Improve Health Care Quality through Health Information Technology (R03)

Due Date: February 16th, June 16th, and October 16th (Expires: November 17, 2011)

Amount: \$100,000 over a maximum project period of up to two years

Description: The purpose of this Funding Opportunity Announcement (FOA) is to support a wide variety of research designs in order to improve the quality, safety, effectiveness, and efficiency of health care through the implementation and use of health IT. These designs include: small pilot and feasibility or self-contained health IT research projects; secondary data analysis of health IT research; and economic (prospective or retrospective) analyses of health IT implementation and use. Through economic analyses estimates of health IT implementation and use costs and benefits will be generated.

Research Focus Areas

- Health IT to improve the quality and safety of medication management via the integration and utilization of medication management systems and technologies.
- Health IT to support patient-centered care, the coordination of care across transitions in care settings, and the use of electronic exchange of health information to improve quality of care.
- Health IT to improve health care decision making through the use of integrated data and knowledge management.

PS09-906: Capacity Building Assistance to Improve the Delivery and Effectiveness of Human Immunodeficiency Virus Prevention Services for High-risk and/or Ethnic Minority Populations.

Due Date: See RFA

Amount: See RFA

Description: The purpose of this new program is to build the capacity of organizations to operate optimally and to provide evidence-based interventions and public health strategies that can help reduce the burden of HIV infection among high-risk and/or racial/ethnic minority populations within the U.S. and its Territories. This will be accomplished via a competitive process to award cooperative agreements to non-governmental organizations to provide CBA to: (1) community-based organizations (CBOs), including faith-based organizations (FBOs); (2) community stakeholders providing HIV prevention services targeting high-risk and/or racial/ethnic minority populations, and (3) health departments and community planning groups.

March Funding Report, 2010

National Institute of Health (NIH)

www.nih.gov/

Community-Based Partnerships for Childhood Obesity Prevention and Control: Research to Inform Policy (R03)

Due Date: February 16th, June 16th, and October 16th (Expires: May 8, 2012)

Amount: \$250,000 over 2 years (direct)

Description: The purpose of this funding opportunity announcement (FOA) issued by the NICHD is to enhance childhood obesity research by fostering the formation of local, state, or regional teams consisting of researchers, policymakers, and other relevant stakeholders (e.g., community representatives, public health practitioners or officials, educators) in order to identify research questions and hypotheses, design and implement the relevant research, and translate the research into evidence relevant to potential policy efforts in this area. The R03 grant mechanism supports different types of projects including pilot and feasibility studies; secondary analysis of existing data; small, self-contained research projects; development of research methodology; and development of new research technology. The R03 is intended to support small research projects that can be carried out in a short period of time with limited resources.

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PA-09-140.html#SectionII>

PAR-08-270 Utilizing Health Information Technology (IT) to Improve Health Care Quality (R18)

Due Date: February 5th, June 5th, and October 5th (Expires: May 8, 2011)

Amount: Total costs are limited to \$1.2 million over three years and no more than \$500,000 total costs in a given year

Description: The purpose of this Funding Opportunity Announcement (FOA) is to support health information technology (IT) demonstration projects that evaluate factors associated with successful implementation and utilization of health IT in order to improve the quality, safety, effectiveness and efficiency of health care in ambulatory settings and in the transitions between care settings. The use of health IT has been demonstrated to improve health care in various large health care delivery systems. Yet, there has been limited diffusion and evaluation of the implementation and utility of health IT in ambulatory care settings and in transitions between care settings.

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PAR-08-270.html>

PAR-08-268 Small Research Grant to Improve Health Care Quality through Health Information Technology (IT) (R03)

Due Date: February 16th, June 16th, and October 16th (Expires: November 17, 2011)

Amount: Total costs are limited to \$100,000 over a maximum project period of up to two years

Description: The purpose of this Funding Opportunity Announcement (FOA) is to support a wide variety of research designs in order to improve the quality, safety, effectiveness, and efficiency of health care through the implementation and use of health IT. These designs include: small pilot and feasibility or self-contained health IT research projects; secondary data analysis of health IT research; and economic (prospective or retrospective) analyses of health IT implementation and use.

PA-08-253 Unique Interactions between Tobacco Use and HIV/AIDS (R01)

Due Date: February 5th, June 5th, and October 5th (Expires: January 8, 2012)

Amount: See Announcement

Description: The purpose for this FOA issued by the National Institute on Drug Abuse and the Fogarty International Center encourages Research Project Grant (R01) applications from institutions/organizations that propose to stimulate research related to the unique, interactive health effects of cigarette smoking and HIV/AIDS.

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PA-08-253.html>

PAR-08-088 Advanced Centers for Intervention and/or Services Research (ACISR) (P30)

Due Date: LOI: May 21st; Due: June 24th (Expires: June 25, 2010)

Amount: \$2,000,000 per year for total costs for a project period of up to 5 years

Description: The National Institute of Mental Health (NIMH) invites research grant applications to support core infrastructure for conducting intervention and/or services research directly addressing the mission of NIMH, which is to reduce the burden of mental and behavioral disorders through research on mind, brain, and behavior. The DSIR

**Northwest Portland Area Indian Health Board
March Funding Report, 2010**

supports two main areas of research: a) intervention research to evaluate the effectiveness of pharmacologic, psychosocial, somatic, rehabilitative and combination treatment or preventive interventions on mental and behavior disorders, and b) mental health services research that consists of interdisciplinary investigations of the predictors, processes and outcomes of mental health services, including availability, access and acceptability; organization; decision-making; service delivery, utilization and quality of care; costs, cost-effectiveness and financing of mental health care, and the dissemination and implementation of effective interventions into service systems.

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PA-08-088.html>

PAR-08-086 NIDA Comprehensive Research "Center of Excellence" Grant Program (P60)

Due Date: Letters of Intent: February 28, 2008; January 26, 2009; January 26, 2010

Application Due Dates: March 26, 2008; February 26, 2009, February 26, 2010 (Expires: May 8, 2010)

Amount: See Announcement (5 years)

Description: A P60 provides support for broadly based, innovative, multidisciplinary research programs consisting of related research endeavors and associated core infrastructure to ensure their effective and synergistic functioning. In addition, the center presents opportunities for bi-directional transdisciplinary work and support translational drug abuse treatment research. They are designed to bring together into common focus divergent but related research and resources/facilities within a given research community. In addition, Comprehensive Centers support continuing education for health care professionals and dissemination of information to the public. They should include components of basic, clinical, prevention, epidemiology, health services, or other applied areas. While not all of these areas must be represented (e.g., a center could propose basic science and community prevention), there should be a comprehensive approach to the research theme. It is important that the research supported not be simply a collection of independent research projects that are only loosely related. Each individual research component must be systematically related both to some other components and to the core infrastructure. Training and mentoring to enhance junior researchers' or other researchers' skills should be conducted in the context of the research, but funds may not be used for training stipends or training not required to conduct the research.

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PA-08-086.html>

PAR-08-268 Improve Health Care Quality through Health Information Technology (R03)

Due Date: February 16th, June 16th, and October 16th (Expires: November 17, 2011)

Amount: \$100,000 over a maximum project period of up to two years

Description: The purpose of this Funding Opportunity Announcement (FOA) is to support a wide variety of research designs in order to improve the quality, safety, effectiveness, and efficiency of health care through the implementation and use of health IT. These designs include: small pilot and feasibility or self-contained health IT research projects; secondary data analysis of health IT research; and economic (prospective or retrospective) analyses of health IT implementation and use. Through economic analyses estimates of health IT implementation and use costs and benefits will be generated.

PA-08-263 Health Services Research on the Prevention and Treatment of Drug and Alcohol Abuse

Due Date: See Announcement for standard R01, R21, and R03 submission dates (Expires: January 7, 2012)

Amount: \$750,000

Description: This Funding Opportunity Announcement (FOA) issued by the National Institute on Drug Abuse (NIDA) and the National Institute on Alcohol Abuse and Alcoholism (NIAAA) encourages Research Project Grant (R01) applications on health services research to improve the quality of prevention and treatment services for drug and alcohol abuse. Such research projects might emphasize any of the following subjects: (1) clinical quality improvement; (2) organizational/managerial quality improvement; (3) systems of care and collaborative research; or (4) development or improvement of research methodology, analytic approaches, and measurement instrumentation used in the study of drug and alcohol services.

For more information visit: (R01) <http://grants.nih.gov/grants/guide/pa-files/PA-08-263.html>; (R21)

**Northwest Portland Area Indian Health Board
March Funding Report, 2010**

PAR-08-261 Research on Emergency Medical Services for Children (R01)

Due Date: Letters of Intent Due: August 19, 2009; August 15, 2010

Applications Due: September 19, 2009; September 15, 2010

Amount: See Announcement

Description: This multi-agency program Funding Opportunity Announcement (FOA) is designed to improve the quality and quantity of research related to emergency medical services for children (EMSC), with the goal of reducing morbidity and mortality in children through improved care delivery. This FOA invites the submission of applications dealing with the following areas of research included under the term EMSC: prevention research to reduce the need for emergency care; clinical research to ensure that children receive high-quality and appropriate medical, nursing and mental health care in an emergency; health systems research, from pre-hospital care, to the emergency department, to in-patient care and return to the community; models to improve service and cost efficiency in pediatric emergency care; and methodological studies to improve the quality of research conducted.

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PAR-08-261.html>

PA-08-253 Unique Interactions between Tobacco Use and HIV/AIDS (R01)

Due Date: See Announcement for standard R01 and R03 submission dates (Expires: January 1, 2012)

Amount: See Announcement

Description: Purpose. The purpose for this FOA issued by the National Institute on Drug Abuse and the Fogarty International Center encourages Research Project Grant (R01) applications from institutions/organizations that propose to stimulate research related to the unique, interactive health effects of cigarette smoking and HIV/AIDS. -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) grant mechanism and runs in parallel with a FOA of identical scientific scope, PA-08-254, that encourages applications under the Small Research Grant (R03) award mechanism.

For more information visit:

(R01) <http://grants.nih.gov/grants/guide/pa-files/PA-08-253.html>

(R03) <http://grants.nih.gov/grants/guide/pa-files/PA-08-254.html>

PA-08-255 Functioning of People with Mental Disorders (R01)

Due Date: February 5th, June 5th, and October 5th (Expires: September 7, 2011)

Amount: See Announcement

Description: Although considerable advances have been made in improving the symptoms associated with mental disorders, symptom improvement is often only modestly associated with improvements in daily functioning (i.e., the performance of social, occupational, and instrumental tasks of daily living), and most current treatments have limited impact on the functioning and participation of those with mental disorders. The purpose of this Funding Opportunity Announcement (FOA), issued by the National Institute of Mental Health (NIMH), is the application of bio-behavioral science methods and approaches to: a) develop and refine definitions and measures of function, disability, and daily participation relevant to those with mental disorders; b) understand the ecological mechanisms, independent of symptom severity, that contribute to functioning and disability in this population; and c) develop and test novel interventions that specifically and directly target functional capacity and performance deficits of this population. Emphasis will be on the application of basic behavioral processes (e.g., cognition, affect, knowledge, attitudes, motivation, learning, decision-making, interpersonal processes), and environmental parameters (e.g., social support, structural adaptations, community involvement) that influence functional outcome.

PA-08-125 Epidemiology of Drug Abuse

Due Date: See Announcement

Amount: See Announcement

Description: This funding opportunity announcement (FOA) encourages exploratory/developmental research projects to expand the application of drug abuse epidemiologic research focused on understanding the nature, extent, consequences, and etiology of drug abuse across individuals, families, age groups, gender, communities, and population groups. This FOA will utilize the NIH Exploratory/Developmental (R21) award mechanism and runs in parallel with an

**Northwest Portland Area Indian Health Board
March Funding Report, 2010**

FOA of identical scientific scope, PA-08-124, that encourages applications under the R01 mechanism, and PA-08-126, that encourages applications under the R03 mechanism.

PA-07-391 Reducing Health Disparities among Minority and Underserved Children

Due Date: February 5th, June 5th, and October 5th (Expires: September 8, 2010)

Amount: R21 (\$275,000 direct)

Description: This Funding Opportunity Announcement solicits applications from institutions/organizations that propose to conduct research to reduce health disparities among minority and underserved children. Specifically, this initiative focuses on ethnic and racial minority children and underserved populations of children such as: children from low literacy, rural and low-income populations, geographically isolated children, hearing and visually impaired children, physically or mentally disabled children, children of migrant workers, children from immigrant and refugee families, and language minority children. Specific targeted areas of research include bio-behavioral studies that incorporate multiple factors that influence child health disparities such as biological (e.g., genetics, cellular, organ systems), lifestyle factors, environmental (physical and family environments), social (e.g., peer influences), economic, institutional, and cultural and family influences; studies that target the specific health promotion needs of children with a known illness and/or disability; and studies that test and evaluate the cost effectiveness of health promotion interventions conducted in nontraditional settings.

Indian Health Service

www.ihs.gov

Indian Health Professions Preparatory, Indian Health Professions Pre-graduate and Indian Health Professions Scholarship Programs

Due Dates: February 28th for continuing students, March 28, 2010, for new students

Amount: See Announcement

Description: The Indian Health Service (IHS) is committed to encouraging American Indians and Alaska Natives to enter the health professions and to assuring the availability of Indian health professionals to service Indians. The IHS is committed to the recruitment of students for the following programs: The Indian Health Professions Preparatory Scholarship authorized by section 103 of the Indian Health Care Improvement Act (IHCIA), as amended. The Indian Health Professions Pre-graduate Scholarship authorized by section 103 of the IHCIA, as amended. The Indian Health Professions Scholarship authorized by section 104 of the IHCIA, as amended.

Full-time and part-time scholarships will be funded for each of the three scholarship programs.

The Oregon Community Foundation

<http://www.ocf1.org/>

Community Grants and Early Childhood Programs

Due Dates: See Website

Amount: See Website gaping

Description: Community Grants: As a responsive arm of OCF, the Community Grants program awards about 200 grants each year, mostly to small and moderate-sized nonprofits. Our belief is that meeting a broad range of locally-identified needs helps nonprofits improve the quality of life in their communities.

The Community Grant program supports nonprofits that engage their communities in solving local problems. Preference is given to programs that (1) demonstrate a close fit with OCF funding priorities, (2) are preventive rather than remedial, and (3) have community support both in terms of volunteers and dollars. Grant proposals range from modest short-term projects and specific, one-time capital expenses to extended projects that promise long-term benefits for Oregon.

Early Childhood Program: Through the Early Childhood Program, OCF supports: early literacy and parenting programs, scholarships for early childhood training and education, initiatives to improve child care quality, research on key early childhood issues and strategies, and forums for information sharing.

For more information visit: <http://www.oregoncf.org/receive/grants/grant-opportunities/community-grants>

The Washington Health Foundation

<http://www.whf.org/>

Due: Deadlines: March 7 and August 1

Amount: \$1,000 to \$15,000

Description: 1) Health Homes for All; Young Adults Next When a person and their family has a trusted relationship with a knowledgeable health partner, and this results in timely receipt of proven preventive care, the development of a personal wellness plan, and the compilation of all health records in a single location" 2) Healthy Eating & Active Living In today's society, our lack of opportunity for daily exercise and the convenience of unhealthy foods have led to an epidemic of obesity and preventable chronic diseases. 3) Closing the Health Disparities Gap Health disparities are differences in the incidence or prevalence of health risk factors, illnesses, injuries, deaths or receipt of health services between sub-groups within the population. In Washington, these disparities are prominent between racially, ethnically, economically and educationally disadvantaged individuals and others. 4) Improving Public Health Performance and Capacity State and local public health agencies need clear performance measures to make the most of efforts to re-build their infrastructure for emergency preparedness, control of infectious diseases, environmental health, public health assessment, as well as prevention and treatment of chronic diseases.

University of Washington

Regional Native American Community Networks – Community Grants, Small

Due Date: On a rolling basis and there are no deadlines

Amount: \$750

Description: American Indians and Alaska Natives in the targeted 8 states experience disparities in cancer-directed awareness and care compared to other racial/ethnic groups, and are less likely to survive cancer. As part of a grant provided by the National Cancer Institute, the Regional Native American Community Networks Program is seeking to increase cancer-related projects that promote education, prevention, and treatment targeting American Indians and Alaska Natives. The Community Networks Program is seeking applications from community organizations, groups, or individuals to encourage the participation of Tribal communities and Native-focused organizations in these endeavors.

The Health Trust

<http://www.healthtrust.org/>

Good Samaritan and Health Partnership Grants

Due: Applications accepted on an ongoing basis

Amount: See Announcement

Description: Good Samaritan Grants are designed to provide short-term funding for grass roots health, prevention, and wellness activities. These grants are awarded in amounts up to \$25,000, and are distributed twice a year to community-based organizations, as well as public and nonprofit health providers. Good Samaritan Grants improve access to health, prevention and wellness services and/or health education for underserved populations in Santa Clara and Northern San Benito Counties. Health Partnership Grants: are made to non-profits and are for medically related services, delivered by the hospitals or by community based organizations. These grants seek to foster long-term improvements in community health by funding innovative and effective programs and models of care that have a high potential for obtaining sustainable operating support and significantly improving the quality of life of service beneficiaries. They may provide multiple years of funding, with no specified maximum grant amount. In order to provide maximum leverage, these grants often emphasize disease management and prevention for medically underserved in our community.

W.K. Kellogg Foundation

www.wkkf.org/

Health Grants

Due Date: See Announcement

Amount: See Announcement

Description: Health programming at the Kellogg Foundation focuses explicitly on improving individual and community health, and improving access to and the quality of health care. Our current goal is to promote health among vulnerable individuals and communities through programming that empowers individuals, mobilizes communities, engages institutions, improves health care quality and access, and informs public and marketplace policy. Grant making takes into account the social and economic determinants of health within a person's community, the quality of health institutions within that community, and the policies that determine how health services are organized, provided, and financed.

Northwest Portland Area Indian Health Board
March Funding Report, 2010

Public Welfare Foundation
www.publicwelfare.org/

General Grants Program

Due Date: (LOI Required) See Announcement

Amount: See Announcement

Description: The Foundation's grant making strongly emphasizes support for organizations that include service, advocacy, or empowerment in their approach, with particular interest in efforts that combine two or all three of these elements. Service is vital to remedy specific problems, with successful service programs often being the catalyst for more widespread action through advocacy. Advocacy addresses those specific problems in a systemic way through changes in public policy at the local, state, national, or international levels to enhance and broaden the impact of the Foundation's grant making. Encourages and enables people in need to play leading roles in achieving policy changes and remedying specific problems. We also look for organizations that link their work, or their community and local work, to other efforts to effect broader public policy change.

The M. J. Murdock Charitable Trust
www.murdock-trust.org/

Health and Human Service, Scientific, and Education Grants

LOI: Required

Due Date: On a rolling basis and there are no deadlines

Amount: Varies by program

Description: The Trust's mission is to enrich the quality of life in the Pacific Northwest by providing grants to organizations that seek to strengthen the region's educational and cultural base in creative and sustainable ways. Education: Projects and programs primarily educational in purpose offered in both formal and informal settings. Emphasis is placed on program enhancement or expansion and new approaches consistent with the institution's mission and resources. Scientific Research: Projects and programs in the natural sciences in which acquisition of new knowledge is the main objective. Training of students in conducting research is an important consideration. Health and Human Services: Projects and programs designed to enhance the quality of life in the region. The Trust supports efforts to preventively meet the physical, spiritual, social, and psychological needs of people, with an emphasis on youth.

For more information visit: <http://www.murdock-trust.org/>

The Allstate Foundation
<http://www.allstate.com/foundation/>

Safe and Vital Communities and Economic Empowerment Grants

Due Date: On a rolling basis and there are no deadlines

Amount: Varies by program

Description: The Allstate Foundation supports national and local programs that fit within three focus areas. Proposals for program support must address needs within one of the three focus areas to be considered for funding: Safe and vital communities Programs should address: 1) Catastrophe response; 2) Youth anti-violence; 3) Neighborhood revitalization; 4) Teen safe driving Economic empowerment Programs should address: 1) Financial and economic literacy; 2) Insurance education; 3) Empowerment for victims of domestic violence Tolerance, inclusion and diversity.

March Funding Report, 2010**

Commonwealth Fund

www.commonwealthfund.org/

Commonwealth Health Grants

Due: Applications accepted on an ongoing basis

Amount: See Announcement

Description: The mission of The Commonwealth Fund is to promote a high performing health care system that achieves better access, improved quality, and greater efficiency, particularly for society's most vulnerable, including people with low-incomes, the uninsured, minority Americans, young children, people with disabilities, and the elderly. The Fund carries out this mandate by supporting independent research on health care issues and making grants to improve health care practice and policy. An international program in health policy is designed to stimulate innovative policies and practices in the United States and other industrialized countries. The Commonwealth Fund actively seeks to support projects on innovative approaches to addressing problems within its areas of focus, working in partnership with professionals and organizations in a range of fields.

The Association of American Indian Physicians (AAIP)

<http://www.aaip.org/>

High School Students National Native American Youth Initiative, George Washington University - Washington, D.C.

Due: April 16, 2010

Amount: See Announcement

Description: The Association of American Indian Physicians (AAIP) is now accepting applications from American Indian/Alaska Native (AI/AN) high school students ages 16-18 who have an interest in the health field and/or biomedical research for the 13th Annual Patty Iron Cloud National Native American Youth Initiative (NNAYI). The George Washington University campus in Washington, D.C. will be the site for NNAYI from June 19-27, 2010. Selected high school students will receive a scholarship that covers airfare, lodging and most meals during the NNAYI program.

The Corporation for National and Community Service

http://www.learnandserve.gov/for_organizations/funding/nofa_detail.asp?tbl_nofa_id=77

Learn and Serve America School-Based Indian Tribes and U.S. Territories FY 2010

Due: March 9, 2010

Amount: \$45,000 to \$120,000 annually for a project period of up to three years.

Description: The Corporation for National and Community Service announces the availability of \$650,070 for new Learn and Serve America School-Based grants to Indian Tribes and U.S. Territories to involve school-age youth in service-learning projects that simultaneously support student development and meet community needs.

For more information visit: http://www.learnandserve.gov/for_organizations/funding/nofa_detail.asp?tbl_nofa_id=77

Northwest Portland Area Indian Health Board
March Funding Report, 2010

NIH Changes – Effective January 25, 2010

The Peer Review Enhancement Initiative
Effective January 25, 2010

Changes at NIH

These changes affect ALL competing application: new, renewal, resubmission, and revisions as of January 25, 2010. For complete detail visit: http://enhancing-peer-review.nih.gov/restructured_applications.html

Scoring

To improve the transparency of the scoring process:

- Before a review meeting, assigned reviewers will score applications on the five review criteria (Significance, Investigator(s), Innovation, Approach, and Environment) using a scale of 1-9 (1 = exceptional; 9 = poor).
- Each assigned reviewer will also provide a preliminary overall score using the new 1-9 scale.
- At the meeting, discussed applications will receive an overall score from each eligible (i.e., without conflicts of interest) panel member and these scores will be averaged, multiplied by 10. The possible **priority scores** will thus range from 10-90.

Critiques

To improve the quality of the critiques and to focus reviewer attention on the review criteria:

- Before the review meeting, in addition to preliminary scoring, assigned reviewers will provide written critiques of the application through an electronic template that will prompt for strengths and weaknesses for each criterion.
- After the meeting, the critiques will be compiled into a summary statement that will be shorter and more focused than current summary statements due to standardized organization and reporting of strengths and weaknesses.
- Discussed applications also will have a summary of the panel's discussion at the meeting.
- All application will receive criterion scores in addition to the reviewers' critiques to help applicants assess whether or not they should submit an amended application.
- NIH has decreasing the number of resubmissions (i.e., amendments) permitted from two to one.

Shorten and Restructure Applications

- Restructured application
 - **Research Plan:**
 - Specific Aims: will include new language about the impact that the results of the proposed research will exert; page limit will remain at 1 page
 - Research Strategy: will be created as a new section and will include 3 of the current sections – Background and Significance, Preliminary Studies, and Research Design and Methods
 - **Resources:** The facilities and other resources section will be changed to require a description of how the scientific environment will contribute to the probability of success of the project, unique features of the environment, and for Early Stage Investigators, specifically the institutional investment in the success of the investigator.
 - **Biographical Sketch:** New instructions require a Personal Statement and also provide guidelines for the inclusion of references, limiting the list to no more than 15 (nothing submitted or under review).

**Northwest Portland Area Indian Health Board
March Funding Report, 2010**

- New instructions including **shorter page limits** – the page limits for the new Research Strategy section generally will be 6 or 12 pages (with an additional 1 page for Specific Aims), according to the chart below. As always, if the FOA requires page limits that differ from the application instructions, the FOA page limits should be followed.

Current Page Limit (Sections 2-5 of the Research Plan)	<u>New Page Limits</u> (Research Strategy)
< 25	6
25	12
> 25	<i>Follow FOA Instructions</i>

Enhanced Review Criteria

- **Overall Impact.** Reviewers will provide an overall impact score to reflect their assessment of the likelihood for the project to exert a sustained, powerful influence on the research field(s) involved, in consideration of the following five core review criteria, and additional review criteria (as applicable for the project proposed).
- **Core Review Criteria.** Reviewers will consider each of the five review criteria below in the determination of scientific and technical merit, and give a separate score for each. An application does not need to be strong in all categories to be judged likely to have major scientific impact. For example, a project that by its nature is not innovative may be essential to advance a field.
 - **Significance.** Does the project address an important problem or a critical barrier to progress in the field? If the aims of the project are achieved, how will scientific knowledge, technical capability, and/or clinical practice be improved? How will successful completion of the aims change the concepts, methods, technologies, treatments, services, or preventative interventions that drive this field?
 - **Investigator(s).** Are the PD/PIs, collaborators, and other researchers well suited to the project? If Early Stage Investigators or New Investigators, do they have appropriate experience and training? If established, have they demonstrated an ongoing record of accomplishments that have advanced their field(s)? If the project is collaborative or multi-PD/PI, do the investigators have complementary and integrated expertise; are their leadership approach, governance and organizational structure appropriate for the project?
 - **Innovation.** Does the application challenge and seek to shift current research or clinical practice paradigms by utilizing novel theoretical concepts, approaches or methodologies, instrumentation, or interventions? Are the concepts, approaches or methodologies, instrumentation, or interventions novel to one field of research or novel in a broad sense? Is a refinement, improvement, or new application of theoretical concepts, approaches or methodologies, instrumentation, or interventions proposed?
 - **Approach.** Are the overall strategy, methodology, and analyses well-reasoned and appropriate to accomplish the specific aims of the project? Are potential problems, alternative strategies, and benchmarks for success presented? If the project is in the early stages of development, will the strategy establish feasibility and will particularly risky aspects be managed?
If the project involves clinical research, are the plans for 1) protection of human subjects from research risks, and 2) inclusion of minorities and members of both sexes/genders, as well as the inclusion of children, justified in terms of the scientific goals and research strategy proposed?
 - **Environment.** Will the scientific environment in which the work will be done contribute to the probability of success? Are the institutional support, equipment and other physical resources available to the investigators adequate for the project proposed? Will the project benefit from unique features of the scientific environment, subject populations, or collaborative arrangements?

**Northwest Portland Area Indian Health Board
March Funding Report, 2010**

- **Additional Review Criteria.** As applicable for the project proposed, reviewers will consider the following additional items in the determination of scientific and technical merit, but will not give separate scores for these items.
 - **Protections for Human Subjects.** For research that involves human subjects but does not involve one of the six categories of research that are exempt under 45 CFR Part 46, the committee will evaluate the justification for involvement of human subjects and the proposed protections from research risk relating to their participation according to the following five review criteria: 1) risk to subjects, 2) adequacy of protection against risks, 3) potential benefits to the subjects and others, 4) importance of the knowledge to be gained, and 5) data and safety monitoring for clinical trials.
 - **Inclusion of Women, Minorities, and Children.** When the proposed project involves clinical research, the committee will evaluate the proposed plans for inclusion of minorities and members of both genders, as well as the inclusion of children.
 - **Vertebrate Animals.** The committee will evaluate the involvement of live vertebrate animals as part of the scientific assessment according to the following five points: 1) proposed use of the animals, and species, strains, ages, sex, and numbers to be used; 2) justifications for the use of animals and for the appropriateness of the species and numbers proposed; 3) adequacy of veterinary care; 4) procedures for limiting discomfort, distress, pain and injury to that which is unavoidable in the conduct of scientifically sound research including the use of analgesic, anesthetic, and tranquilizing drugs and/or comfortable restraining devices; and 5) methods of euthanasia and reason for selection if not consistent with the AVMA Guidelines on Euthanasia.
 - **Resubmission Applications.** When reviewing a Resubmission application (formerly called an amended application), the committee will evaluate the application as now presented, taking into consideration the responses to comments from the previous scientific review group and changes made to the project.

U.S. Department of Justice

Coordinated Tribal Assistance Solicitation Fact Sheet

“Let us resolve to continue our communication, and our collaboration. The immediate task is to transform proposals into policy, ideas into implementation.” - Attorney General Eric Holder

As the Attorney General made clear at the Listening Session in October, the Department of Justice (DOJ) is committed to a sustained partnership with Tribal governments to improve public safety in Tribal communities, to ensure the security of Native women, and to build a better future for young people who are the future of Tribal communities. At the Listening Session, senior Justice Department officials heard the articulated needs of Tribal governments to achieve these goals. Additionally, two National Tribal Teleconference Calls were held on December 18 and 23, 2009 in order to obtain your input in the development of this new approach. Many Tribal leaders expressed a need to improve the Justice Department's grant-making process and we heard you.

How is the Department's Fiscal Year 2010 grant process different from other years?

In Fiscal Year 2010 (October 1, 2009 through September 30, 2010), we will be issuing one, single Coordinated Tribal Assistance Solicitation that encompasses the Department's available Tribal government-specific grant programs.¹ Please note that only the application process has been streamlined; the federal resources appropriated in Fiscal Year 2010 will remain with the DOJ component or office to which they were originally appropriated.

Under the FY 2010 Coordinated Tribal Assistance Solicitation, the Department will ask each Tribe to submit a single application for all available DOJ Tribal government-specific grant programs, according to the Tribes' needs. The advantage of this coordinated process is that, when DOJ reviews a single application from your Tribe, it will have a better understanding of your overall public safety needs. The grant-making components then will coordinate in making award decisions to address these needs on a more comprehensive basis. This solicitation and application process is targeted to begin mid-March 2010.

In the Coordinated Tribal Assistance Solicitation, each DOJ Tribal government-specific competitive grant program is referred to as a different "Purpose Area." Each Tribe may select the Purpose Area(s) that best address your public safety, criminal and juvenile justice, and victimization needs. The different DOJ grant-making components will make and administer multiple awards by Purpose Area. The awarding DOJ component will manage the grants in the same manner that grants are currently managed.

Please note that tribes or tribal consortium may be eligible for other, non-Tribal specific DOJ grant-funding opportunities and may submit a separate application to any grant programs for which they may be eligible.

What can Tribal governments expect for the future?

This single solicitation is just a first step in improving the grant-making process and addressing the concerns raised by Tribal leaders. Our longer term goal is to move toward a more flexible and sustainable grant funding model. The Department will work closely with the Tribes to explore ways to further improve the grant-making process and to better meet the public safety needs of Tribal communities.

Tribal Community & Justice Profile

In preparing your application, we encourage you to review your community, public safety and justice systems to help identify gaps in services that grant programs can address. The description below is provided to help you prepare your profile.

Current Demographics: The tribe's enrollment, its current local population; the size of the reservation; jurisdiction to be served; whether the Tribe has a direct, contract, or compact service delivery system; the Tribe's form of government; and other general information.

Victim Services: The type of victim services available to the local Tribal community, including emergency health care and

¹ OVW's Tribal Coalitions Grant Program will not be a part of this consolidated effort. Those interested in applying for these grants must apply directly to OVW.

behavior health care systems. Please be sure to address whether and what services are available for victims of domestic violence, dating violence, sexual assault and stalking.

Court System: Whether your Tribe is subject to Federal or State criminal jurisdiction, the type of court system operated by or for the Tribe, any cross-jurisdictional cooperative agreements with State or local courts, and any related probation, parole, reentry services available.

Law Enforcement: A description of the type of law enforcement services provided to your Tribe, including the sworn force strength, any cross-jurisdictional cooperative agreements, sex offender registry, task forces, communication-information sharing systems, or similar arrangements.

Facilities: The type of facilities used to support the public safety and justice system, such as: courthouse, police, transitional housing, jails (adult/juvenile), treatment facilities, hospitals, clinics, emergency shelters, etc.

Juvenile/Youth Services: The type of youth prevention, mentoring, delinquency, child protection teams, and rehabilitation services available in your community.

Community Needs Assessment

In this section of the Tribal community and justice profile, the Tribe should address the following issues:

Problem statement: Describe the most pressing Tribal justice, community safety, and victimization issues that face your community.

Service Area: The impacted or service area(s) of the community or communities in which the grant-funded project(s) would be implemented, including geographic location, socioeconomic data, total population, age range of population, membership, governance and other relevant demographic information.

Current Efforts: Your existing and previous efforts and collaborations to address these issues, including whether you used previously awarded grant funds.

Data and Examples: Data and examples to explain the nature of the issue, including incident data, number of calls for assistance, and information on age, gender, arrest volume, crime patterns for juvenile and adult offenders, the geographic environment, and target population. If this data is unavailable, offer an explanation for the lack of the data, and provide alternative information to support the identified problem(s).

How does a Tribal government apply for DOJ grants?

If you think that your Tribe may be interested in applying for DOJ funding, we encourage you to register to apply for funding. All potential applicants, including Tribes, need to obtain a DUNS (Data Universal Numbering System) number and register with the Central Contractor Registration (CCR) registrant database. A DUNS number is a unique number that identifies an organization and helps track the distribution of grant money. The CCR is a central repository of organizations working with the federal government. Applications must be submitted through OJP's online Grants Management System (GMS). To access the system, please visit: <https://grants.ojp.usdoj.gov>. Registration with the OJP GMS is required prior to application submission under the Coordinated Tribal Assistance Solicitation. First-time applicants should begin the process immediately to meet the GMS registration deadline. The registration process for organizations includes: (1) Obtaining a Data Universal Numbering System (DUNS) number; (2) Registering your organization with the Central Contractor Registration (CCR) database; and (3) Registering with GMS prior to applying. Applicants with existing GMS accounts do **not** need to re-register; rather they should use current user ids and passwords to access GMS. Your Tribe may have already established a DUNS number. First tier sub awardees must also have a DUNS number and register with the CCR. Please check with your grants administrator or chief financial officer to see if your organization has a DUNS number. To obtain a DUNS number, call the Dun & Bradstreet (D&B) Customer Resource Center at 1-866-705-5711 or visit <http://fedgov.dnb.com/webform/displayHomePage.do>. To verify or renew a CCR registration, visit <http://www.ccr.gov>. Tribes must update or renew their CCR registration at least once per year to maintain an active status. Please allow up to three weeks to complete the CCR registration process. If your organization is not registered with CCR, identify a primary contact who should register your Tribe. Keep in mind that your Tribe must receive a DUNS number **before** it can register with CCR.

For programmatic assistance contact the Response Center at 1-800-421-6770 or by email at tribalgrants@usdoj.gov. The Response Center hours of operation are Monday - Friday (except U.S. Federal government holidays) from 9:00am to 5:00pm Eastern Time. The Response Center will remain open on the solicitation closing date until 9:00 pm Eastern Time.

Coordinated Tribal Assistance Solicitation Purpose Areas

1. Improve public safety and enhance community policing capacity (COPS- Tribal Resources Grant Program – TRGP)
2. Prevent and reduce alcohol and substance abuse-related crimes (BJA- Indian Alcohol and Substance Abuse Prevention Program – IASAP)
3. Develop and enhance the operation of tribal justice systems (BJA- Tribal Courts Assistance Program – TCAP)
4. Plan, renovate or construct correctional and/or correctional alternative facilities (BJA- Correctional Facilities on Tribal Lands Program – CFTL)
5. Provide direct intervention and assistance to victims of sexual assault (OVW- Tribal Sexual Assault Services Program – TSASP)
6. Enhance responses to violence committed against Indian women and girls (OVW- Tribal Governments Program – TGP)
7. Provide community outreach and victim assistance services to address elder abuse (OVC – Tribal Elder Outreach Program)
8. Prevent and control delinquency and improve the juvenile justice system (OJJDP – Tribal Youth Program – TYP)
9. Enhance accountability for delinquent behavior (OJJDP- Tribal Juvenile Accountability Discretionary Program – TJADG)
10. Develop new demonstration projects on violence prevention and rehabilitation (OJJDP – Tribal Youth Program – TYP)

INFORMATIONAL BRIEFING

Tribal Homeland Security Grant Program (THSGP) Overview/Update

**Federal Emergency Management Agency
Grant Programs Directorate**

March, 2010

THSGP Background Information

Tribal Homeland Security Grant Program (THSGP)¹ was introduced in FY 2008 as a result of the 9/11 Commission Act of 2007 (hereafter “9/11 Act”)

- **Purpose**

- Provides supplemental funding to directly eligible tribes to help strengthen their communities against risks associated with potential terrorist attacks

- **Historical Program Appropriations**

- FY 2008: \$1,644,555
- FY 2009: \$1,788,000

- **Period of Performance**

- The period of performance of this grant program is 36 months

1. Formally known as the State Homeland Security Program Tribal (SHSP) Grant Program

Applicant Eligibility Criteria

- Four Eligibility Criteria

- Federally recognized

- [\(\[http://www.fws.gov/nativeamerican/graphics/fed_recognized_tribes.pdf\]\(http://www.fws.gov/nativeamerican/graphics/fed_recognized_tribes.pdf\)\)](http://www.fws.gov/nativeamerican/graphics/fed_recognized_tribes.pdf)

- Emergency Management **or** Law Enforcement Capabilities

- Geographic Factors

- Financial Factors

FY 2010 THSGP

- Applications are due by 11:59 p.m. EDT, April 19, 2010.
- Applications must be submitted via grants.gov
- Total amount available in funding is up to \$10M
- **FY 2010 Investment Justification (application).** The Investment Justification (IJ) application has been streamlined to reduce applicant workload

FY 2010 THSGP

- **Early Eligibility Confirmation Process.**
 - We have compiled a list of potentially eligible tribes with the help of DHS' Infrastructure Data Management Office
 - Tribes may contact FEMA GPD to confirm their eligibility at ASKCsid@fema.gov
 - If a tribe is not on the list but believe they meet the criteria, this is an opportunity to present evidence to FEMA

- **Review Process**
 - There will be a review process. FEMA GPD is still working out details of what the review will look like
 - Conducting an Early Recruitment Effort, reaching out to individuals and national Native American organizations to participate and provide names of as individuals who may be interested in being reviewers of applications

Contact Information

- For additional information regarding the Tribal Homeland Security Grant Program (THSGP) please contact:
 - LaTanya Watson
 - Phone: (202) 786-9540
 - Email: latanya.watson@dhs.gov
 - Sebastian Heath
 - Phone: (202) 786-9482
