6TH TREE OF HEALING REGISTRATION

A healthy community has the ability to remain solid like a tree. The passion of creating a healthy community has many aspects that are connected, much like the living spirit of a tree. Its roots run deeply into mother earth which will keep it healthy and strong. Its branches reach out for the everlasting strength of the sun. And as for the trunk of the tree, it will grow great and strong because it grew slow and well. The goal of the Tree of Healing Conference is to captivate these same features in our community, to provide tools, cultivate wellness, and to allow healing to come full circle.
