CDC-RFA-OT12-1201 Capacity Building Assistance to Improve Health in Tribal Populations

Due Date: May 1, 2012

Amount: \$300,000

Description: The purpose of this Funding Opportunity Announcement (FOA) is to provide financial assistance to applicants serving tribal health departments (or their equivalents) so these organizations can provide Capacity Building Assistance, (CBA) to improve tribal health department quality, effectiveness, and efficiency in the delivery of public health services. Specifically, assistance will be provided in the following two Priority Areas: (1) capacity building assistance to prepare for public health department accreditation, and (2) capacity building assistance to implement model program and policy practices that address Winnable Battles that are culturally appropriate to AI/AN populations and address highest priority public health needs.

HHS-2011-ACF-ANA-NL-0139 Native American Language Preservation and Maintenance

Due Date: January 31, 2013

Amount: \$300,000

Description: The Administration for Children and Families, Administration for Native Americans announces the availability of Fiscal Year 2011 funds for community-based projects for the Native Language Preservation and Maintenance program. The purpose of ANA grant funding is to promote economic and social self-sufficiency for American Indians, Alaska Natives, Native Hawaiians, and other Native American Pacific Islanders, including American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands. The Native Language Preservation and Maintenance program provides funding for projects to support assessments of the status of the native languages in an established community, as well as the planning, designing, and implementing of native language curriculum and education projects to support a community's language preservation goals.

Robert Wood Johnson Foundation

Roadmaps to Health: Community Grants

Due Date: Brief proposal May 2, 2012; Full proposal July 25, 2012

Amount: \$200,000 each for up to 24 months

Description: The *Roadmaps to Health* Community Grants program (Community Grants) will support communities to implement policy or system changes to address one of the social or economic factors that, as defined by the *County Health Rankings*, most strongly influence health outcomes in their community. These include: education; employment and income; family and social support; and community safety. Grantees will be organizations that participate in established coalitions or networks that span multiple sectors and perspectives and may include representatives from business; education; public health; health care; community organizations; community members; policy advocates; foundations; and policy-makers. Applicants must engage community members in the planning and implementation of projects, and must collaborate with organizations having expertise in improving the health of the public. Applicants must secure 100 percent matching support, including a cash match of at least 50 percent with the balance as in-kind support.

PAR-10-168 AHRQ Small Research Grant Program (R03)

Due Date: February 16th, June 16th, and October 16th (Expires: March 17, 2014)

Amount: \$100,000 for up to two years

Description: This Funding Opportunity Announcement (FOA) encourages Small Research Grant (R03) applications, and expresses AHRQ portfolio priority areas of interest for ongoing small research projects. The R03 grant mechanism supports different types of health services research projects including pilot and feasibility studies; secondary analysis of existing data; small, self-contained research projects; development of research methodology; and research technology.

PAS-10-247 Strategies for Treatment of Young Adults with Alcohol Use Disorders (R03)

Due Date: February 16th, June 16th, and October 16th (Expires: September 8, 2013)

Amount: \$100,000 direct costs over a two-year project period

Description: The National Institute on Alcohol Abuse and Alcoholism (NIAAA), National Institutes of Health (NIH), invites applications to support new research on the treatment of young adults (18-25 years of age) with alcohol use disorders. Compared to all other age groups, the prevalence of periodic heavy or high-risk drinking is greatest among young adults aged 18 to 25. Alcohol use disorders, including alcohol dependence, also peak during this critical period during which profound developmental changes occur. Despite having the highest prevalence of drinking, interventions for this group have been understudied. Gaps exist in understanding how to effectively engage this group in treatment, which treatments are the most effective, and how to maintain treatment gains in the longer term after treatment. The R03 grant mechanism supports different types of projects including pilot and feasibility studies; secondary analysis of existing data; small, self-contained research projects; development of research methodology; and development of new research technology. The R03 is intended to support small research projects that can be carried out in a short period of time with limited resources.

PA-11-283 Psychosocial/Behavioral Interventions and Services Research in Autism Spectrum Disorders (R34)

Due Date: February 16th, June 16th, and October 16th (Expires: September 8, 2014)

Amount: \$450,000

Description: The purpose of this Funding Opportunity Announcement (FOA) is to facilitate exploratory research on psychosocial/behavioral treatments and innovative services research for autism spectrum disorders, including the development of instruments to evaluate the impact of interventions on core features of autism spectrum disorders, and comorbid symptomatology. It is intended to encourage research on: 1) the development and/or pilot testing of new or adapted interventions or instruments, 2) pilot testing novel interventions in preparation for larger efficacy trials, or 3) innovative services research directions that require preliminary testing or development, as well as to facilitate the program goal of enhancing autism research through the broad availability of data and resource infrastructure to further scientific advancement and public health benefits.

PA-10-253 NIDCD Research on Hearing Health Care (R01)

Due Date: February 5th, June 5th, and October 5th (Expires: September 8, 2013)

Amount: See Announcement

Description: The overarching emphasis is on the acquisition of knowledge that can be rapidly translated into new or enhanced approaches for access, assessment or interventions with a goal to delivering better hearing health care outcomes. Applications should seek quality approaches that are effective, affordable and deliverable to those who need them as well as implementable and sustainable in settings beyond the research environment.

Drug Abuse Prevention Intervention Research

Due Date: See announcements

Amount: See announcements

Description: The purpose of this FOA is to encourage Research Project Grant (R01) applications from institutions/organizations that propose to advance the science of drug abuse and drug-related HIV prevention through 1) the development of novel prevention approaches, 2) the testing of novel and adapted prevention intervention approaches 3) the elucidation of processes associated with the selection, adoption, adaptation, implementation, sustainability, and financing of empirically validated interventions, and 4) the development of new methodologies suitable for the design and analysis of prevention research studies. Programs of research are intended to provide pathways toward the discovery of population-level approaches for the prevention of drug abuse and dependence, drug-related problems (such as mental health, interpersonal violence, criminal involvement, and productivity loss), and drug-related disorders (e.g., comorbid drug and psychiatric disorders; infections such as HIV, hepatitis B, and hepatitis C).

PAR-09-225 Improving Diet and Physical Activity Assessment (R21)

Due Date: Letters of Intent: May 16, 2012;

Application Due Dates: June 16, 2012 (alternating standard R21 receipt dates)

Amount: See Announcement

Description: This Funding Opportunity Announcement (FOA), issued by the National Cancer Institute (NCI), the National Heart, Lung, and Blood Institute (NHLBI), the National Institute on Aging (NIA), the National Institute of Child Health and Human Development (NICHD), the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK), the National Institute of Nursing Research (NINR), and the National Institutes of Health (NIH) Office of the Director (OD) Office of Dietary Supplements (ODS), encourages innovative research to enhance the quality of measurements of dietary intake and physical activity. Applications submitted under this FOA may include development of: novel assessment approaches; better methods to evaluate instruments; assessment tools for culturally diverse populations or various age groups, including children and older adults; improved technology or applications of existing technology; statistical methods to assess or correct for measurement errors or biases, methods to investigate the multidimensionality of diet and physical activity behavior through pattern analysis; or integrated measurement of diet and physical activity along with the environmental context of such behaviors.

PAR-10-136 Behavioral and Social Science Research on Understanding and Reducing Health Disparities (R01)

Due Date: May 11, 2012, September 14, 2012, January 14, 2013, May 11, 2013 (Expires: May 12, 2013)

Amount: See Announcement

Description: To encourage behavioral and social science research on the causes and solutions to health and disabilities disparities in the U. S. population. Health disparities between, on the one hand, racial/ethnic populations, lower socioeconomic classes, and rural residents and, on the other hand, the overall U.S. population are major public health concerns. Emphasis is placed on research in and among three broad areas of action: 1) public policy, 2) health care, and 3) disease/disability prevention. Particular attention is given to reducing health gaps among groups.

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PAR-10-136.html>

PAR-10-137 Behavioral and Social Science Research on Understanding and Reducing Health Disparities (R21)

PA-09-140 Community-Based Partnerships for Childhood Obesity Prevention and Control: Research to Inform Policy

Due Date: February 16th, June 16th, and October 16th (Expires: May 8, 2012)

Amount: \$250,000 over 2 years (direct)

Description: The purpose of this opportunity is to enhance childhood obesity research by fostering the formation of local, state, or regional teams consisting of researchers, policymakers, and other relevant stakeholders (e.g., community representatives, public health practitioners or officials, educators) in order to identify research questions and hypotheses, design and implement the relevant research, and translate the research into evidence relevant to potential policy efforts in this area. The R03 grant mechanism supports different types of projects including pilot and feasibility studies; secondary analysis of existing data; small, self-contained research projects; development of research methodology; and development of new research technology. The R03 is intended to support small research projects that can be carried out in a short period of time with limited resources.

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PA-09-140.html#SectionII>

PA-11-260 Research Project Grant (Parent R01)

**Northwest Portland Area Indian Health Board
March Funding Report, 2012**

Due Date: February 5th, June 5th, and October 5th (Expires: September 8, 2014)

Amount: See Announcement

Description: The Research Project Grant (R01) is an award made to an institution/organization to support a discrete, specified, circumscribed project to be performed by the named investigator(s) in areas representing the specific interests and competencies of the investigator(s). The R01 research plan proposed by the applicant institution/organization must be related to the stated program interests of one or more of the NIH Institutes and Centers (ICs) based on descriptions of their programs. All research project grant applications described in this announcement will be assigned to NIH ICs according to standard Public Health Service (PHS) referral guidelines and specific program interests. Investigators are encouraged to consult the participating NIH ICs and their Web sites (see <http://www.nih.gov/icd>).

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PA-11-260.html>

PA-11-261 NIH Exploratory Developmental Research Grant Program (Parent R21)

Due Date: February 16th, June 16th, and October 16th (Expires: September 8, 2014)

Amount: See Announcement

Description: The National Institutes of Health (NIH) Exploratory/Developmental Grant (R21) funding opportunity supports the development of new research activities in categorical program areas. Investigator-initiated research, also known as unsolicited research, is research funded as a result of an investigator submitting a research grant application to NIH in an investigator's area of interest and competency. All investigator-initiated exploratory/developmental applications described in this announcement will be assigned to NIH Institutes and Centers (ICs) according to standard Public Health Service (PHS) referral guidelines and specific program interests. Investigators are strongly encouraged to consult the list of participating ICs and special research interests. The Exploratory/Developmental Grant (R21) mechanism is intended to encourage exploratory and developmental research projects by providing support for the early and conceptual stages of these projects. These studies may involve considerable risk but may lead to a breakthrough in a particular area, or to the development of novel techniques, agents, methodologies, models, or applications that could have a major impact on a field of biomedical, behavioral, or clinical research.

For more information visit: <http://grants.nih.gov/grants/guide/pa-files/PA-11-261.html>

PA-11-262 NIH Small Research Grant Program (Parent R03)

Due Date: February 16th, June 16th, and October 16th (Expires: September 8, 2014)

Amount: See Announcement

Description: The National Institutes of Health (NIH) Investigator-Initiated Small Grant (R03) funding opportunity supports small research projects that can be carried out in a short period of time with limited resources. Investigator-initiated research, also known as unsolicited research, is research funded as a result of an investigator submitting a research grant application to NIH in an investigator's area of interest and competency. Investigators are strongly encouraged to consult the list of participating ICs and special research interests. The R03 grant mechanism supports different types of projects including pilot and feasibility studies; secondary analysis of existing data; small, self-contained research projects; development of research methodology; and development of new research technology. The R03 is intended to support small research projects that can be carried out in a short period of time with limited resources.

Community Grants and Early Childhood Programs

Due Dates: See Website

Amount: See Website gaping

Description: Community Grants: As a responsive arm of OCF, the Community Grants program awards about 200 grants each year, mostly to small and moderate-sized nonprofits. Our belief is that meeting a broad range of locally-identified needs helps nonprofits improve the quality of life in their communities. The Community Grant program supports nonprofits that engage their communities in solving local problems. Preference is given to programs that (1) demonstrate a close fit with OCF funding priorities, (2) are preventive rather than remedial, and (3) have community support both in terms of volunteers and dollars. Grant proposals range from modest short-term projects and specific, one-time capital expenses to extended projects that promise long-term benefits for Oregon. Early Childhood Program: Through the Early Childhood Program, OCF supports: early literacy and parenting programs, scholarships for early childhood training and education, initiatives to improve child care quality, research on key early childhood issues and strategies, and forums for information sharing.

For more information visit: <http://www.oregoncf.org/receive/grants/grant-opportunities/community-grants>

The Washington Health Foundation

<http://www.whf.org/>

Due: Deadlines: March 7 and August 1

Amount: \$1,000 to \$15,000

Description: 1) Health Homes for All; Young Adults Next When a person and their family has a trusted relationship with a knowledgeable health partner, and this results in timely receipt of proven preventive care, the development of a personal wellness plan, and the compilation of all health records in a single location” 2) Healthy Eating & Active Living In today’s society, our lack of opportunity for daily exercise and the convenience of unhealthy foods have led to an epidemic of obesity and preventable chronic diseases. 3) Closing the Health Disparities Gap Health disparities are differences in the incidence or prevalence of health risk factors, illnesses, injuries, deaths or receipt of health services between sub-groups within the population. In Washington, these disparities are prominent between racially, ethnically, economically and educationally disadvantaged individuals and others. 4) Improving Public Health Performance and Capacity State and local public health agencies need clear performance measures to make the most of efforts to re-build their infrastructure for emergency preparedness, control of infectious diseases, environmental health, public health assessment, as well as prevention and treatment of chronic diseases.

For more information visit: <http://www.whf.org/Grants/HSINGrants.aspx>

American Cancer Society (ACS)

<http://www.cancer.org/docroot/home/index.asp>

Research Scholar Grants in Basic, Preclinical, Clinical and Epidemiology Research

Due Date: April 1st and October 15th

Amount: Awards are for up to four years and for up to \$200,000 per year (direct costs), plus 20% indirect costs.

Description: Support investigator-initiated research projects in basic, preclinical, clinical and epidemiologic research.

For more information visit: http://www.cancer.org/docroot/RES/RES_0.asp

Graduate Scholarships in Cancer Nursing Practice

Due Date: February 1

Amount: Awards may be for two years, with stipend of \$10,000 per year.

Description: This award supports graduate students pursuing a master's degree in cancer nursing or doctorate of nursing practice (DNP).

The Gerber Foundation

<http://www.gerberfoundation.org/>

Pediatric Health

Due: Grant awards are approved in May and November. Initial letters of inquiry are accepted at any time but should be submitted no later than 5 months prior to these award dates. For the May round submit letters prior to December 1; for the November submit letters prior to June 1.

Amount: See Announcement

Description: The Gerber Foundation provides funding for national programs which have a significant impact on issues facing infants and young children, pre-birth to age 3.

For more information visit: <http://www.gerberfoundation.org/Default.htm>

The Health Trust

<http://www.healthtrust.org/>

Good Samaritan and Health Partnership Grants

Due: Applications accepted on an ongoing basis

Amount: See Announcement

Description: Good Samaritan Grants: are designed to provide short-term funding for grass roots health, prevention, and wellness activities. These grants are awarded in amounts up to \$25,000, and are distributed twice a year to community-based organizations, as well as public and nonprofit health providers. Good Samaritan Grants improve access to health, prevention and wellness services and/or health education for underserved populations in Santa Clara and Northern San Benito Counties. Health Partnership Grants: are made to non-profits and are for medically related services, delivered by the hospitals or by community based organizations. These grants seek to foster long-term improvements in community health by funding innovative and effective programs and models of care that have a high potential for obtaining sustainable operating support and significantly improving the quality of life of service beneficiaries. They may provide multiple years of funding, with no specified maximum grant amount.

W.K. Kellogg Foundation

www.wkkf.org/

**Northwest Portland Area Indian Health Board
March Funding Report, 2012**

Health Grants

Due Date: See Announcement

Amount: See Announcement

Description: Health programming at the Kellogg Foundation focuses explicitly on improving individual and community health, and improving access to and the quality of health care. Our current goal is to promote health among vulnerable individuals and communities through programming that empowers individuals, mobilizes communities, engages institutions, improves health care quality and access, and informs public and marketplace policy. Grant making takes into account the social and economic determinants of health within a person's community, the quality of health institutions within that community, and the policies that determine how health services are organized, provided, and financed.

The Paul G. Allen Family Foundation

www.pgafoundations.com/

Grant Programs

Due: Letters of inquiry (LOIs) February 1st and July 8th

Amount: See website

Description: The mission of the Paul G. Allen Family Foundation is to transform lives and strengthen communities by fostering innovation, creating knowledge, and promoting social progress. The following are priority program areas:

Arts and Culture Program; Community Development and Social Change Program; Education and Youth Engagement Program; Science and Technology Innovation Program

For more information visit: <http://www.pgafoundations.com/default.aspx>

Public Welfare Foundation

www.publicwelfare.org/

General Grants Program

Due Date: (LOI Required) See Announcement

Amount: See Announcement

Description: The Foundation's grant making emphasizes support for organizations that include service, advocacy, or empowerment in their approach, with particular interest in efforts that combine two or all three of these elements. Service is vital to remedy specific problems, with successful service programs often being the catalyst for more widespread action through advocacy. Advocacy addresses those specific problems in a systemic way through changes in public policy at the local, state, national, or international levels to broaden the impact of the Foundation's grant making.
