Subject: Health System Transformation and Tribes

Dear Applicants:

One of the main goals of health system transformation is to enhance care coordination. With this goal in mind, CCOs will be required to engage the community and community support services which in some cases, includes tribal clinics and Indian Health Services (IHS) facilities. For this reason, we have attached a document identifying tribal contacts and are encouraging you as a potential CCO to contact to these individuals who have clinics or facilities in your proposed service areas.

Also, included is a link to OHA's health reform web CCO materials resource page:  
[Health.Oregon.gov/OHA/OHPB/health-reform/news/index.shtml](http://Health.Oregon.gov/OHA/OHPB/health-reform/news/index.shtml)

On this site are materials that may be used as needed while conducting public presentations. Most documents are in PDF format and can be printed or distributed electronically.

All information is provided as a resource only.

Thank you,
