**Subject:** TPHI Website

Hi Dean,

I hope you are well. As you know, Red Star Innovations was awarded a contract from the Robert Wood Johnson Foundation to lead an 18 month project that examines the role a tribal public health institute (TPHI) might play to improve health among American Indian and Alaska Native communities. We now have a website to share information about the project with Tribal leaders, administrators, and public health professionals committed to improving health outcomes in Tribal communities. We respectfully request that you share this link with those on your contact list so that they can learn more about the project!

<http://www.redstar1.org/tphifeasibilityproject/>

Once on the website, there is a link to an audio presentation and overview of the project along with a survey link for written feedback.

Let us know if you have any questions and thank you for considering this request.

With respect,  
Aleena
