AUGUST

➤ **Healthy Smiles, Healthy Children Invites Letters of Intent for 2014 Access to Care Grants**

Deadline: August 1st, 2013

Description: The Foundation of the American Academy of Pediatric Dentistry launched the Healthy Smiles, Healthy Children initiative in 1987 with the aim of providing quality oral health care to children in need. To that end, HSHC has announced a call for Letters of Intent from pediatric dental care organizations for its 2014 Access to Care Grants program.

Through the call, HSHC will award single-year matching grants of up to \$20,000 to support community-based initiatives that provide oral health care to underserved children. Priority will be given to successful programs with the potential for replication in other communities, as well as initiatives that have worked in collaboration with other institutions and organizations.

Funds may be applied to cover the cost of clinic supplies and instruments, patient/parent education materials, take-home supplies (toothbrushes, toothpaste, etc.), education and/or outreach to recruit dentist participation in program activities, and/or other activities with clear, direct impact on pediatric oral health care.

To be eligible, applicants must be a U.S.-based nonprofit organization or local government agency that provides dental services to children in the U.S. or a U.S.

territory. Projects should have pediatric dentist involvement. If a pediatric dentist is not participating, a general dentist must be involved in order to be considered for funding.

In addition, applicants must have matching funds — either cash or in kind — equal to the grant request amount at the time the application is submitted.

See the American Academy of Pediatric Dentistry site for eligibility and application guidelines.

➤ **William T. Grant Foundation Invites Applications for Youth Social Setting Research Projects**

Deadline: The next deadline for submission of letters of inquiry is August 1, 2013, at 3:00 p.m. EST.

Award Amount: Research grants typically range between \$100,000 and \$600,000 and cover two to three years of support. Projects involving secondary data analysis are at the lower end of the budget range, whereas projects involving new data collection and sample recruitment can be at the higher end. Proposals to launch experiments in which settings (e.g., classrooms, schools, and youth programs) are randomly assigned to conditions sometimes have higher awards.

For smaller projects, we have a separate funding mechanism, Officers' Research grants. These awards cover budgets up to \$25,000. Some are standalone projects that fit our Current Research Interests; others build off of larger projects. Junior scholars of color are encouraged to apply for these grants as a way to build their research programs.

Description: The Foundation supports high-quality research that enhances our understanding of how youth settings work, how they affect youth development, and how they can be improved.

SEPTEMBER

- **!!!Washington State Only!!!**
- **Aetna Foundation Accepting Applications for Regional Nutrition and Physical Activity Programs**

Deadline: September 15, 2013

Award Amount: \$25,000 - \$40,000

Description: The Aetna Foundation is dedicated to the promotion of wellness, health, and access to high-quality health care for everyone, while supporting the communities it serves.

The foundation's Regional Grants program funds community-wellness initiatives that serve those most at risk for poor health - including low-income, underserved, and minority populations -- in Aetna's priority cities and states.

In 2013, grants will target communities where healthy food can be difficult to buy, and where social and environmental factors may limit people's ability to be physically active. The foundation is particularly interested in programs that provide nutrition education and help increase the availability of affordable fresh fruits and vegetables in underserved communities and/or programs that provide opportunities for physical activity in underserved communities.

OCTOBER

➤ **Sexually Transmitted Infections Cooperative Research Centers (STI CRC) (U19)**

Deadline: Oct 23, 2013

Award Amount: \$11,000,000

Description: The purpose of this FOA is to solicit applications for the Sexually Transmitted Infections Cooperative Research Centers (STI CRC) program. The STI CRC program facilitates multidisciplinary, synergistic collaborations that will increase our understanding and further our knowledge of co-infections of two or more specific STIs, as well as the interactions between and among different STI pathogens that may cause or enhance polymicrobial infections of the urogenital tract, e.g., bacterial vaginosis (BV), pelvic inflammatory disease (PID), intraamniotic infection (IAI) and non-gonococcal urethritis (NGU). This collaborative effort is expected to catalyze the discovery of new approaches to prevent, diagnose, and treat co-infections, polymicrobial infections and other clinical outcomes that affect reproductive health.
