

COMMUNITY PARTNER TRAINING NOW OPEN

Greetings,

The Oregon Health Authority (OHA) is pleased to announce the launch of the Cover Oregon online training for community partners.

Cover Oregon is Oregon's health insurance exchange - opening in October 2013 - where individuals, families and small employers can shop for health insurance plans and receive help paying for coverage.

In order to provide Cover Oregon enrollment assistance, all individuals within a community partner organization must complete the online training course followed by an in-person training session. In addition, partners must enter into a formal agreement with OHA as a community outreach and enrollment grantee, provider enrollment grantee, public education grantee or as a volunteer organization. If you are interested in grant opportunities or providing Cover Oregon outreach and/or enrollment services, please contact us at communitypartner@coveroregon.com.

To get started on training:

1. [Register](#) for online training. After registering, you will receive a confirmation email containing the link to begin the online course.
2. Begin online course. This should take less than one hour to complete.
3. Register for in-person training. The final screen of the online course will invite you to register for the in-person, four-hour enrollment assistance training. You can choose from various dates and locations. You will receive an email confirmation. Please keep in mind that space for the in-person training is limited and available on a first-come, first-serve basis.

If you have any questions, please contact us at communitypartner@coveroregon.com.

We look forward to working with you.
