NEW

Interventions for Health Promotion and Disease prevention in Native American Populations (R01)

DEADLINE: May 12, 2015

AMOUNT: \$500,000

DESCRIPTION: The purpose of this funding opportunity announcement (FOA) is to develop, adapt, and test the effectiveness of health promotion and disease prevention interventions in Native American (NA) populations. NA populations are exposed to considerable risk factors that significantly increase their likelihood of chronic disease, substance abuse, mental illness, oral diseases, and HIV-infection. The intervention program should be culturally appropriate and promote the adoption of healthy lifestyles, improve behaviors and social conditions and/or improve environmental conditions related to chronic diseases, the consumption of tobacco, alcohol and other drugs, mental illness, oral disease, or HIV-infection. The intervention program should be designed so that it could be sustained within the entire community within existing resources, and, if successful, disseminated in other Native American communities. The long-term goal of this FOA is to reduce mortality and morbidity in NA communities. For the purposes of this FOA Native Americans include the following populations: Alaska Native, American Indian, and Native Hawaiian. The term 'Native Hawaiian' means any individual any of whose ancestors were natives, prior to 1778, of the area which now comprises the State of Hawaii.

FYI - "OREGON ONLY" - IMPROVING DENTAL HEALTH

The Oregon Community Foundation, Northwest Health Foundation, Kaiser Permanente and other funding partners are pleased to offer two funding opportunities to improve children's dental health.

BUILDING CAPACITY TO IMPROVE OUTCOMES.

FIVE-YEAR PARTNERSHIPS

Through Community-Based Partnerships, Northwest Health Foundation will establish five-year partnerships with up to 10 communities that want to be a part of this transformation of institutions, programs and policies to deliver better outcomes in early life, equity and community health.

Communities will self-identify by geography, shared identity/experience, or both. They will reflect Northwest Health Foundation's equity priorities of race and ethnicity (including immigration and refugee status), disability and geography—priorities where health outcomes are often inequitably worse.

Partnerships will include:

Five-year funding relationships (\$50,000-\$150,000/year)

Peer-led and peer-informed convening and technical assistance

Cohort-led policy and communications agendas

BUT FIRST, ORGANIZING GRANTS

In late summer 2014, they will release a funding opportunity ("Organizing Grants") for up to 30 communities to organize themselves for Community-Based Partnerships.

Organizing Grants from \$20,000 - \$30,000 per community will support activities that help communities prepare to apply for a multi-year partnership—activities which may not always be supported through traditional grants. Grants will be for 10 months, from December 2014 through September 2015.

Social Innovation Fund Pay for Success Grants Competition

Deadline: NOTICE OF INTENT TO APPLY DEADLINE - Applicants are encouraged to send a Notice of Intent to Apply by Tuesday, July 15, 2014.

APPLICATION DEADLINE: Applications are due Thursday, July 31, 2014 at 5:00 p.m. Eastern Standard Time. Successful applicants will be notified by September 30, 2014.

AMOUNT: \$200,000 and \$1,800,000 each year over the three year project period.

DESCRIPTION: The 2014 Social Innovation Fund (SIF) Pay for Success (PFS) Grants Competition will provide up to \$11.2 million in grants to eligible nonprofit

organizations and city and state governments seeking to advance and evaluate emerging models that align payment for social services with verified social outcomes. Consistent with the broader mission of the SIF, the PFS Competition intends to encourage the implementation of PFS projects in order to enhance the reach and impact of innovative community-based solutions in low-income communities.

Pay for Success offers innovative ways of partnering with philanthropic and private sector investors to create incentives for service providers to deliver better outcomes at lower cost—producing the highest return on taxpayer investments. The concept is simple: pay providers after they have demonstrated success, not based on the promise of success, as is done now. Pay for Success financing is a mechanism for increasing investments in effective social interventions by changing the way government allocates and invests its resources – focusing on results and outcomes. This grant competition will determine in which situations the Pay for Success will be most effective. Overall, this will aid in advancing the emerging models that align payment for social services with verified social outcomes.

JULY DEADLINES:

Demonstration Projects to End Childhood Hunger - USDA

DEADLINE: Letter of Intent to Apply Date: May 1, 2014 no later than 11:59 PM (EDT). Application Submission Date: July 7, 2014, no later than 11:59 PM (EDT). Award Date: October 2014.

AMOUNT: Approximately \$30 million will be awarded for up to five demonstration projects in the form of cooperative agreements between USDA-FNS and grantees. The remaining funds will be used for independent evaluations of each project. Depending on the nature of the proposals submitted, up to five (5) applicants may be awarded grants, with no single project exceeding \$10,000,000. Applicants that commit matching resources, including in-kind resources, to the project will receive competitive priority. The cooperative agreements will provide for an implementation phase of up to 12 months and the demonstration projects will operate for at least 12 months, but no more than 24 months.

DESCRIPTION: The purpose of the demonstration projects is to test innovative strategies to end childhood hunger, including alternative models for service delivery and benefit levels that promote the reduction or elimination of childhood hunger and food insecurity. Projects may include enhanced SNAP benefits for eligible households with children; enhanced benefits or innovative program delivery models in school meals, afterschool snacks programs, and the Child and Adult Care Food Program; and other targeted Federal, State or local assistance, including refundable tax credits, emergency housing, employment and training, or family preservation services, for households with children who are experiencing food insecurity.

USDA is interested in targeting areas or populations where there are currently elevated levels of food insecurity or gaps in nutrition assistance program coverage. HHFKA requires that at least one demonstration project be carried out on an Indian reservation in a rural area with a service population having a prevalence of diabetes that exceeds 15 percent. The primary outcome measure for the evaluation will be the change in the prevalence of food insecurity among children as measured by the USDA food security measure. Other site-specific outcomes related to particular interventions may be considered for the evaluation, but will be secondary to food insecurity among children.

Native Strong: Healthy Kids, Healthy Futures - The Notah Begay III Foundation (NB3F)'s

DEADLINE: NB3F Promising Program Grant cycle is currently open and proposals will be accepted until Monday, July 14, 2014 at 5:00 p.m. (MST).

All proposals must be submitted online through the NB3F Grantmaking system. To apply, please visit our grant seeker's homepage.

All applicants will be notified of award or decline by Monday, August 25, 2014 and grant disbursement will commence by September 10, 2014.

AMOUNT: \$40,000

DESCRIPTION: The Notah Begay III Foundation (NB3F)'s national program, Native Strong: Healthy Kids, Healthy Futures is pleased to announce its 2014 Promising

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

\$\$\$ ~ Weekly Funding Opportunities Report ~ \$\$\$

Friday, July 04, 2014

Program Grant Request For Proposals (RFP). NB3F's mission is to reduce childhood obesity and type 2 diabetes and support leadership development for Native American children through the development of evidence-based health and wellness programs, strategic grantmaking, research and advocacy.

Background

Currently, 45 percent of Native American children ages 6-11 are either overweight or obese. In some Native communities, childhood obesity rates are over 60 percent with some children as young as four years of age contracting type 2 diabetes. Unfortunately, there is a shortage of funding resources and support, both public and private, for Native communities to effectively and adequately address this issue. NB3F believes that Native communities have the inherent knowledge, assets and values to address this health issue within their communities. Promising Program Grants were designed to assist Native communities in the implementation of culturally appropriate childhood obesity prevention programming by providing resources and technical assistance.

The purpose of the Native Strong: Healthy Kids, Healthy Futures Promising Program Grant is to:

1. Strengthen existing programs focused on childhood obesity and type 2 diabetes prevention through physical activity and/or healthy nutrition;
2. Assist communities and organizations in building their capacity to evaluate their programming and;
3. Assist communities and organizations in building their capacity to implement policy change.

Recipients of these grants are currently implementing programs for youth that increase physical activity and get kids moving while providing a safe place to play and/or support healthy nutrition programs that can include nutrition education and/or increasing access to healthy and affordable foods.

The Promising Program Grant will give priority to proposals that show strong potential to strengthen their existing program, readiness to build their capacity to evaluate their programs and demonstrate strong potential to share promising outcomes and best practices.

Cooperative Agreement to Support Navigators in Federally-facilitated and State Partnership Marketplaces - CMS-Consumer Information & Insurance Oversight

DEADLINE: July 17, 2014

AMOUNT: (SEE ANNOUNCEMENT)

DESCRIPTION: The Affordable Care Act includes a variety of provisions designed to promote accountability, affordability, quality, and accessibility in the health care system. The Affordable Care Act creates a Health Insurance Marketplace or Marketplace also known as the Affordable Insurance Exchange in each state, that together provide millions of Americans and small employers with access to affordable health insurance coverage. The Marketplace allows individuals, employers, and employees to shop for, select, and enroll in QHPs. The Marketplace also determines individuals eligibility for premium tax credits and cost sharing reductions, as well as helps individuals access other Federal and state health care programs, such as Medicaid and the Childrens Health Insurance Program (CHIP). By providing one-stop shopping, the Marketplace makes purchasing health insurance easier and more understandable than in the past, and puts greater control and greater choice in the hands of eligible individuals and small employers.

AUGUST DEADLINES:

Oregon Rape Prevention and Education (RPE) Grant Program

Competitive Request for Applications FY 2015-2017

DEADLINE: A *Letter of Intent is required in order to apply for these funds. The Letter of Intent (LOI) is due by 5:00 pm on June 18, 2014. A sample LOI for the Prevention Program Grants can be found in Appendix 12 of the Prevention Program grant materials. The LOI for Capacity Building is described in the Capacity Building Grant application section and requires only a statement of intent to apply.

*Applications are due to the Attorney General's Sexual Assault Task Force by 5:00 p.m. on August 5, 2014.

AMOUNT: Prevention Program awards: We anticipate 4 total RPE Prevention Program awards for a maximum individual award of \$55,000 per year. At least 1 of the Prevention Program awards will be made to a culturally specific program. Capacity Building Awards: We anticipate up to 2 RPE Capacity Building awards for a maximum of \$7,500 per year. However, if applications are not recommended for funding in this category, funds available may be added to the Prevention Program category.

DESCRIPTION: The Oregon Attorney General's Sexual Assault Task Force (AGSATF) announces the availability of competitive Rape Prevention and Education Grant Program (RPE) 7 funds during the period of February 1, 2015 to January 31, 2017.

The RPE Program is funded by the Violence Against Women Act, with funds awarded through the Centers for Disease Control and Prevention (CDC) to all 50 states, Washington DC, Puerto Rico, and six territories according to a base amount plus population-based formula. The Maternal and Child Health Section of the Oregon Health authority's Center for Prevention and Health Promotion (MCH) receives Oregon's RPE funds. MCH currently contracts out the administration of Oregon's RPE funds to AGSATF.

The majority of the funds for 2015-17 will be awarded to local agencies to engage in sexual violence primary prevention in local communities. Federal legislation specifies the major areas of activities for preventing rape and sexual assault allowed under the RPE Grant Program, and CDC has set program priorities and provided guidance to all states and territories for implementing the program. CDC's Guiding Principles for RPE include:

- Preventing first-time perpetration and victimization;
- Reducing modifiable risk factors while enhancing protective factors associated with sexual
- violence perpetration and victimization;

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

\$\$\$ ~ Weekly Funding Opportunities Report ~ \$\$\$

Friday, July 04, 2014

- Using the best available evidence when planning, implementing, and evaluating prevention
- programs;
- Incorporating behavior and social change theories into prevention programs;

Using population-based surveillance to inform program decisions and monitor trends; and Evaluating prevention efforts and using the results to improve future program plans. CDC expects all RPE programs at both the state and local levels to use a public health approach; to develop their programming based upon planning, including a comprehensive assessment of community needs and assets; to participate in program evaluation; and to focus on primary prevention – preventing initial sexual violence perpetration and victimization.

This RFA incorporates and reflects these principles except that it directs applicants to focus prevention efforts on perpetration of sexual violence. Because rape culture rests upon a willingness to blame victims rather than perpetrators, focusing on risk reduction for victimization tends to support victim-blaming and the oppressions that may increase individual and community vulnerability to violence. Focusing on perpetration concentrates our energy where it is most likely to achieve our prevention goals.

WASHINGTON STATE - ONLY

The Moyer Foundation

AMOUNT: \$1,000 to \$10,000

DEADLINE: August 14, 2014 5pm PST

DESCRIPTION: Established in 2000, the Seattle-based Moyer Foundation supports programs that serve the critical needs of children in severe distress, enabling them to live healthy and inspired lives.

To that end, the foundation is awarding grants of up to \$10,000 to community-based nonprofit organizations in Pennsylvania and Washington State that provide direct services to children and teens in the areas of bereavement and grief support and/or drug and alcohol dependency.

To be considered for a grant, an organization must have 501(c)(3) tax-exempt status, be based in Pennsylvania or Washington, and provide services to children and youth up to the age of 18. To be eligible, organizations may not generate more than 50 percent of their revenue from government contracts.

SEPTEMBER DEADLINES:

Quality of Life Grants Program – The Reeve Foundation

DEADLINE: 2nd Cycle application submission deadline: September 2, 2014, 11:59 pm ET

AMOUNT: \$25,000

DESCRIPTION: The Christopher and Dana Reeve Foundation is accepting applications from nonprofit organizations that provide services to individuals with paralysis.

Through its Quality of Life program, the foundation will award grants to organizations working to help disabled individuals, their families, and caregivers in ways that more immediately give them increased independence through improved access, education and job training, and/or organized sporting opportunities. Special consideration will be given to organizations serving returning wounded military personnel and their families, and to those that provide targeted services to diverse cultural communities. Grant award amounts will be based on the scope of the project and its impact.

To be eligible, nonprofit organizations must be considered tax exempt under Section 501(c)(3) of the Internal Revenue Code and serve individuals with physical disabilities, particularly paralysis, and their families.

Visit the Reeve Foundation Web site for complete program guidelines and application instructions.

corresponding maximum annual federal award amounts.

DESCRIPTION: Established in 1971 and now one of the largest senior volunteer programs in the nation, RSVP offers a diverse range of volunteer activities that serve communities to create measurable impact, benefit volunteers through the service experience, and create community capacity. RSVP volunteers serve with commitments ranging from a few hours to 40 hours per week. Through this competition CNCS seeks to identify the most competitive applicants and increase the impact of national service in 341 specific communities across the country. CNCS intends to fund RSVP grants that support volunteers 55 years and older serving in a diverse range of activities that meet specific community needs and that respond to National Performance Measures. 3

RSVP grant applications must:

- Serve the entire geographic service area associated with the funding opportunities listed in Appendix A
- Support the minimum number of volunteers listed in Appendix A
- Meet the National Performance Measure requirements and other criteria established in this Notice
- Minimize, to the extent possible, disruptions to the current volunteers associated with any incumbent project. Please see Appendix C for more information on how new and incumbent applicants must describe how they plan to minimize the disruption of volunteers if they propose graduating volunteer stations that are included in an incumbent project

Available funding opportunities are listed in Appendix A. Detailed summaries of the 341 available funding opportunities are available on the Senior Corps website at: <http://nationalservice.gov/rsvpcompetition>

Lesbian Health Fund Accepting Applications for Research Projects

The Lesbian Health Fund (LHF), a program of GLMA: Health Professionals Advancing LGBT Equality, was established in 1992 to define, study, and educate lesbians and their health care providers about lesbian health issues. LHF's mission is to improve the health of lesbians, other sexual minority women (SMW) and their families through research.

Research areas include:

Understanding social, family, and interpersonal influences as sources of stress or support

NORTHWEST PORTLAND AREA INDIAN HEALTH BOARD

\$\$\$ ~ Weekly Funding Opportunities Report ~ \$\$\$

Friday, July 04, 2014

Eliminating inequalities in health care, including barriers to care, and improving quality of care and utilization rates

Development and testing of interventions to address mental and physical health needs of lesbians and other SMW, including but not limited to depression, identity related issues, eating disorders, substance abuse, obesity, cancer risks, cardiovascular disease and sexually transmitted infections

Sexual and reproductive health, including family & parenting issues

The deadlines for receipt of applications are May 15 and October 15.

Applications will be evaluated using the following 100 point scale:

Research design - 35 Points

Feasibility of accomplishing the project - 20 Points

Investigators' qualifications - 15 Points

Significance of the project to the lesbian community - 15 Points

Probability for Significant Future Funding - 15 points

In general, investigators are notified by mail approximately two months from the application deadline of its approval for funding. Grants range from \$500 to \$10,000. Grant award checks will be made to the primary institution identified on the application cover page. You may not begin your proposed research until you have received funding from LHF. Grant money is NOT awarded for completed research or for projects in progress.

Interim and final reports are to be submitted by the principal investigator. Upon completion of the project the investigator will be expected to present the results at either the annual Women in Medicine conference or the Annual Conference of GLMA. Within six months of project completion, the investigator is expected to submit a manuscript to a peer-reviewed journal for publication. A copy of the manuscript is to be sent simultaneously to the LHF Program Manager.

Please review LHF's Conflict of Interest Policy before applying.

AMBRF/Foundation for Alcohol Research Inviting Applications for Alcohol Research Projects

The AMBRF/Foundation for Alcohol Research is inviting applications for grants in support of research on the effects of alcohol consumption on health and behavior.

The foundation encourages basic and clinical research, including epidemiology. Examples of research topics include factors influencing underage drinking, mechanisms of alcohol-related organ injury, fetal alcohol spectrum disorders, and effects of alcohol on general health. Areas of particular interest include studies on how particular patterns of consumption (quantity of alcohol consumed, types of alcoholic beverages consumed, frequency of consumption, and context) are related to health and behavioral outcomes; and interdisciplinary, bioinformatics, and other approaches to genetic and environmental factors that influence the patterns of consumption of alcoholic beverages and related consequences.

The foundation does not support research on treatment of the complications of advanced alcoholism. However, research involving treatment paradigms intended to elucidate the pathogenesis of alcohol-related problems will be considered.

Grants are made to academic and research institutions (not individuals) in the United States, Canada, and South Africa. Priority is given to projects led by young investigators, but the foundation does not support students or trainees in pre- or postdoctoral programs.

Grants are awarded for either one or two years, for a maximum of up to \$75,000 for each of the years.

Visit the AMBRF/Foundation for Alcohol Research Web site for complete program guidelines and application instructions.

➤ **Kellogg Foundation Invites Applications for Programs that Engage Youth and Communities in Learning Opportunities**

Deadline: No Deadline

Amount: No Amount Specified

Description: The W.K. Kellogg Foundation is accepting applications from nonprofit organizations working to promote new ideas about how to engage children and youth in learning and ways to bring together community-based systems that promote learning. The foundation will consider grants in four priority areas: Educated Kids; Healthy Kids; Secure Families; and Civic Engagement.

Educated Kids: To ensure that all children get the development and education they need as a basis for independence and success, the foundation seeks opportunities to invest in early child development (ages zero to eight) leading to reading proficiency by third grade, graduation from high school, and pathways to meaningful employment.

Healthy Kids: The foundation supports programs that work to ensure that all children grow and reach optimal well-being by having access to fresh, healthy food, physical activity, quality health care, and strong family supports.

SCHOLARSHIP:

The Meyerhoff Adaptation Project -

The Meyerhoff Scholars Program is open to all high-achieving high school seniors who have an interest in pursuing doctoral study in the sciences or engineering, and who are interested in the advancement of minorities in the sciences and related fields. Students must be nominated for the program and are most typically nominated by their high school administrators, guidance counselors, and teachers. Awards range from \$5,000 – \$22,000 per year for four years.

The Meyerhoff Selection Committee considers students academic performance, standardized test scores, recommendation letters, and commitment to community service. Scholars are selected for their interests in the sciences, engineering, mathematics, or computer science, as well as their plans to pursue a Ph.D. or combined M.D./Ph.D. in the sciences or engineering. Reviewing the freshman class profile may provide an idea of the kinds of students who are admitted to UMBC and the Meyerhoff Scholars Program.

Applicants are expected to have completed a strong college preparatory program of study from an accredited high school. The minimum program of study should include:

English: four years

Social Science/History: three years

Mathematics*: three years

Science: three years

Language other than English: two years

*Students are strongly recommended to have completed four years of mathematics, including trigonometry, pre-calculus, and/or calculus.

Eligibility Criteria

To be considered for the Meyerhoff Scholars Program, prospective students must have at least a “B” average in high school science or math courses, and many applicants have completed a year or more of calculus. Preference is given to those who have taken advanced placement courses in math and science, have research experience, and have strong references from science or math instructors. In recent years, a strong preference has been given to those students interested in the Ph.D. or M.D./Ph.D. (over the M.D.).

Students must meet all eligibility requirements:

Minimum of 600 on the Math component of the SAT

Cumulative High School GPA of a 3.0 or above

NWHF Launches Online Sponsorship Applications

By: Fannie Black | Posted on: September 30th, 2013

Categories: Public Health

NWHF may be headquartered in Portland, but we serve the entire state of Oregon and SW Washington. We are continually looking for new ways to establish partnerships beyond the Portland-metro area, especially to rural communities. As the grant administrator for NWHF, I'm always looking for ways to help foster those partnerships by making the funding process efficient and reaching a broader audience.

One area we recently identified as needing a more formalized process was our sponsorships. Many organizations were unaware that sponsorships were available through the Foundation and even fewer were aware of the process to obtain one. We have been working to make our sponsorship funding more accessible, and as a result we launched our online application and sponsorship policy a few weeks ago (<http://nwhf.org/sponsorships>). We are thrilled with the level of interest from organizations across Oregon and SW Washington and have received inquiries from Astoria to La Grande, Oregon, and Longview, Washington, to Grants Pass, Oregon.

The sponsorship program also provides us the opportunity to form partnerships with organizations who may not necessarily qualify for grant opportunities. There are a lot of organizations doing great work promoting health or contributing to the determinants of health and we want to work with you to increase your visibility. Please review our full policy to determine eligibility, and if you have questions about sponsorships please feel free to contact me at fannie@nwhf.org or (503) 505-5702. <http://nwhf.org/sponsorships>
