

Sexual Assault Nurse Examiner (SANE) Training

September 24th-28th, 2012— Portland, OR

The Northwest Portland Area Indian Health Board and the Oregon Sexual Assault Task Force are accepting applications for Sexual Assault Nurse Examiner (SANE) Training on adult and adolescent sexual assault medical response for medical professionals who work with Native victims in Oregon, Washington, and Idaho.

The 40-hour training meets:

- Oregon SANE Certification training requirements **and**
- International Association of Forensic Nurses (IAFN) SANE certification training requirements

Eligible participants will:

- Have a current RN, NP, PA, MD or DO license
- Have two years of nursing or clinical experience
- Work with victims from at least one of the 43 federally recognized tribes in Oregon, Washington, or Idaho
- Be actively participating as a RN, NP, PA, MD or DO*
- Have support from their medical center to attend

*Active practicing RNs, NPs, PAs, MDs and DOs have an average of 20 hours per week of patient contact.

Training Location

The 2012 SANE Training will be held at the Northwest Portland Area Indian Health Board, 2121 SW Broadway, Suite 300, Portland, Oregon 97201.

Cost

This training is **free of charge** and **all expenses paid** including mileage, lodging, and per diem.

About the SANE Training

The 2012 Tribal SANE Training will be held September 24th-28th. Sessions will be from approximately 8:00 am to 5:00 pm Monday through Friday. You must attend the entire training in order to receive credit.

The 40-hour training will provide instruction on how to:

- Obtain a relevant medical history from sexual assault victims
- Conduct a physical examination specific to the medical history
- Document injury using photography, bodygrams and charting
- Collect and preserve evidence
- Collect and document urine and blood samples when drug facilitated sexual assault is suspected
- Complete a Sexual Assault Forensic Evidence (SAFE) kit and maintain chain of evidence
- Provide the victim with prophylactic medications and/or emergency contraception for the prevention of sexually transmitted infections (STIs) and pregnancy
- Treat and/or refer the victim for medical treatment
- Work as part of a victim-centered and multidisciplinary response

Applications

Space in this training is limited to a maximum of 20 participants. We will give priority to registrants who are the only medical professional in the tribal community in which they work. Please describe, in detail, the extent to which you work with tribal populations in your application.
