

Attn: Tribal Health Directors and NPAIHB Delegates

Dear Tribal BEAR Friends;

Please join us for the 3rd annual Regional Tribal BEAR Training in Spokane, WA on November 7th at Northern Quest Casino Hotel. The registration link is on the SPIPA website: www.spipa.org. Please look on the right side of the page to find the agenda and registration information.

The fee for this conference is \$ 50 and will cover all food and conference material. You will find payment information under the registration section on the SPIPA website. The receipt of your payment will serve as confirmation of your registration.

This Regional Training is co-sponsored by the Salish Kootenai Tribal BEAR Project which serves Montana and Idaho and Indian Health Services serving the NW Portland Area Indian Health Board. Both Tribal BEAR Projects are administered by the Northwest AIDS Education Center at the University of Washington.

This training will offer the latest information on HIV, STI, and Hep C screening and treatment, as well as the recent update on Post-exposure prophylaxis. The speakers are practicing physicians at the UW's Harborview Clinic. A panel of service providers for the region will provide contact and service information and a best practice discussion during lunch will highlight programs in Washington State and Idaho.

If you have questions, please contact the Tribal BEAR Project at SPIPA at 360-426-3990 or at the Salish Kootenai College at 406-275-4920.

We look forward to meeting you in Spokane on November 7, 2013.

Best regards
Jutta Riediger
