

“ **Hep C** is **MY**
RESPONSIBILITY
because...”

...as a primary care provider,
working on both prevention and
treatment, I feel it is my duty to link
our people to the services and
treatment they need.”

Shannon Walker

Inupiaq, Family Practitioner, ARNP FNP-C

American Indians and **Alaska Natives**
have the highest **hepatitis C** mortality rate of any race or ethnicity.

• **It's time to raise awareness. Encourage your patients to get tested and treated for hepatitis C.**

Together, we can eliminate Hep C.

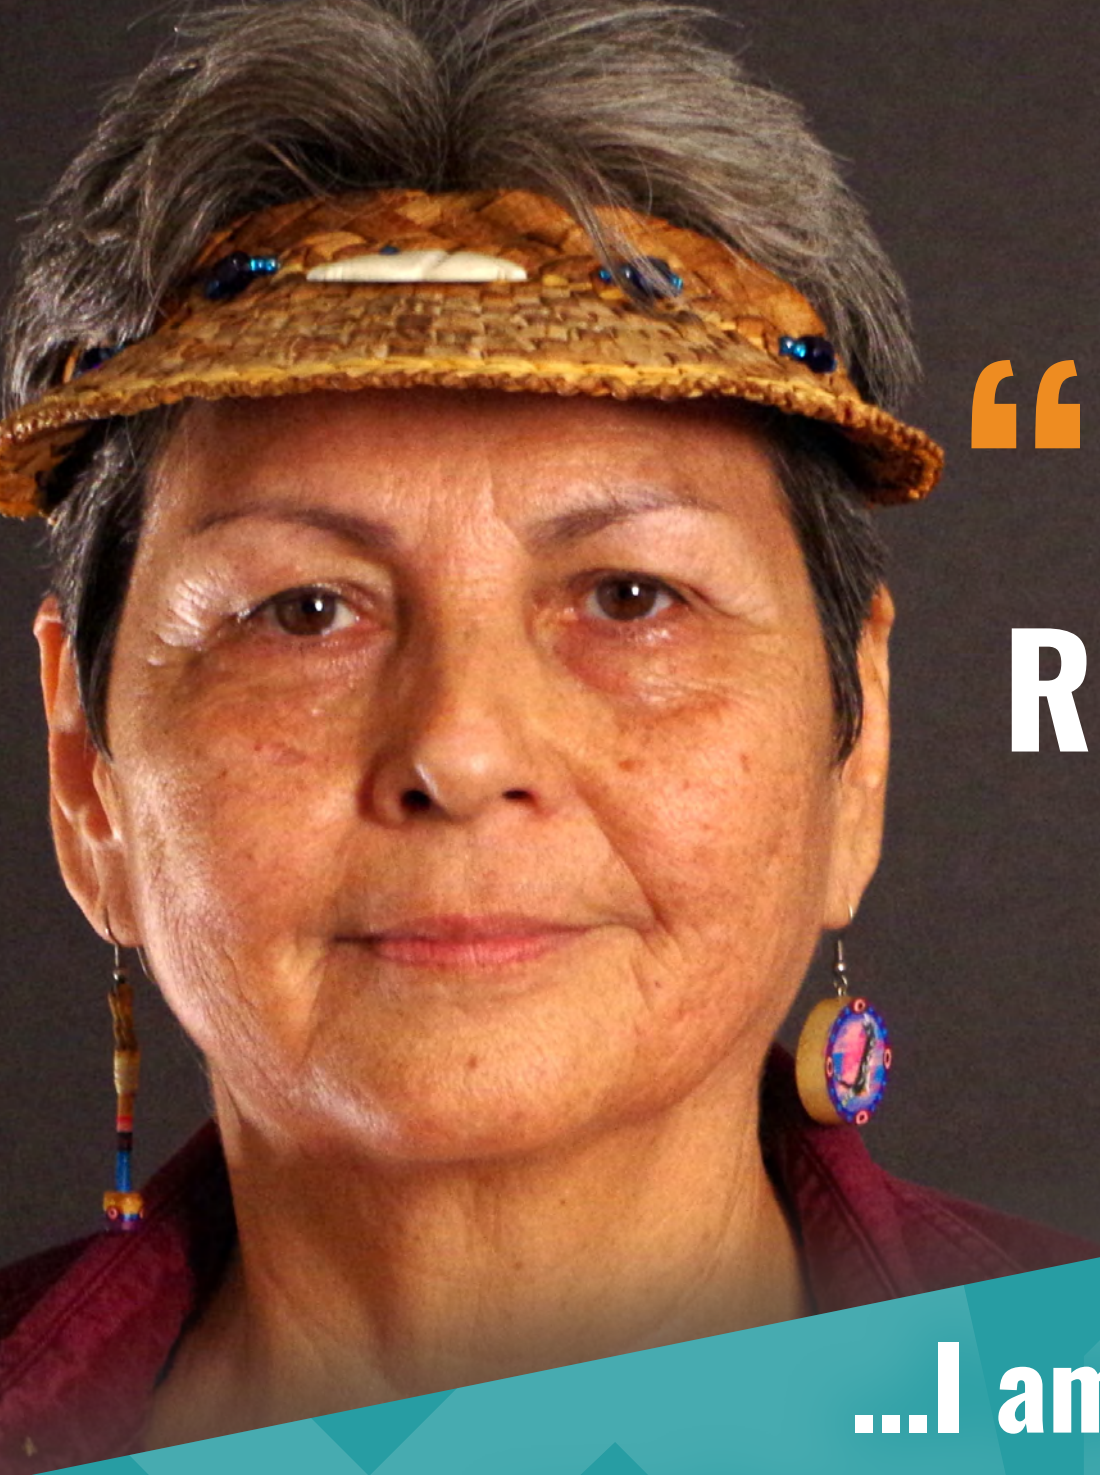

NPAIHB

Indian Leadership for Indian Health

This mask, from the exhibit “Aggravated Organisms,” was carved by Drew Michael and painted by Elizabeth Ellis to represent hepatitis C. The 10 human-sized wooden masks in the exhibit explored how different diseases can overtake human cells. The exhibit traveled through Alaska and the Seattle area, ending with the masks being burned in a traditional ceremony.

“ **Hep C** is **MY**
RESPONSIBILITY
because...

...I am the only one who
can impact my own health, and
my health is a reflection of the
world as I know it.”

Harriette Cheeka

Makah

American Indians and **Alaska Natives**
have the highest **hepatitis C** mortality rate of any race or ethnicity.

It's time to take care of ourselves and the ones we love.

• **Get tested. If you have hepatitis C, get treated.**
Together, we can eliminate Hep C.
