TRIBAL RESOURCE DIGEST

Welcome to Centers for Disease Control and Prevention's (CDC) tribal resource digest for the week of December 17, 2018. The purpose of this digest is to help you connect with the tools and resources you may need to do valuable work in your communities. We are adding 2 new programs to this newsletter – Tribal Practices for Wellness in Indian County (TPWIC) and Tribal Epidemiology Centers Public Health Infrastructure (TECPHI).

Funding Opportunities

Tribal Researchers' Cancer Control Fellowship Program

The Tribal Researchers' Cancer Control Fellowship Program will be accepting applications in January 2019! Attached is the save the date flyer with additional information. See flyer attached to email.

The overall goal of the Tribal Researchers' Cancer Control Fellowship Program is to reduce cancer incidence and mortality and improve cancer survival in tribal communities through the efforts of AI/AN researchers. This fellowship program offers training and mentorship to prepare researchers to design and implement cancer-related research projects within AI/AN communities.

Accepted Fellows will:

- * attend three-weeks of tailored cancer control research training held at the Northwest Portland Area Indian Health Board in Portland, Oregon. The first two weeks will be June 16th-28th, 2019 followed by a one-week session in the fall.
- * receive follow-up support, including field support, distance learning opportunities, and mentoring.
- * be eligible for cancer control research internships to master additional research skills relevant to careers in community-based cancer control under close mentorship.
- * be connected to a network of experts in cancer control and prevention in Indian Country.

Application Deadline: January 21, 2019
Application Materials due: March 22, 2019

Community Access to Child Health (CATCH) Planning and Implementation Grants

Funding to support pediatricians and fellowship trainees in the initial planning and/or pilot stage of implementing innovative, community-based projects to increase children's access to optimal health and well-being and address unmet child health needs. Read more [here](#)
