

# Strategic Plan Report

04/01/2021 - 06/30/2021

**Mission:** Eliminate health disparities and improve the quality of life of American Indians and Alaska Natives by supporting Northwest tribes in their delivery of culturally appropriate, high quality health programs and services.

## Strategic Priorities

### 1. Leadership

Be a national leader in tribal public health initiatives and support health infrastructure development for our member tribes.

### 2. Partnerships

Strengthen regional and national partnerships to ensure tribal access to the best possible health resources and services.

### 3. Policy and Legislation

Maintain leadership in the analysis of health-related budgets, legislation, and policy.

### 4. Health Promotion

Support health promotion and disease prevention activities occurring among the Northwest Tribes.

### 5. Research and Surveillance

Support and conduct culturally-appropriate health research and surveillance in partnership with the Northwest Tribes.

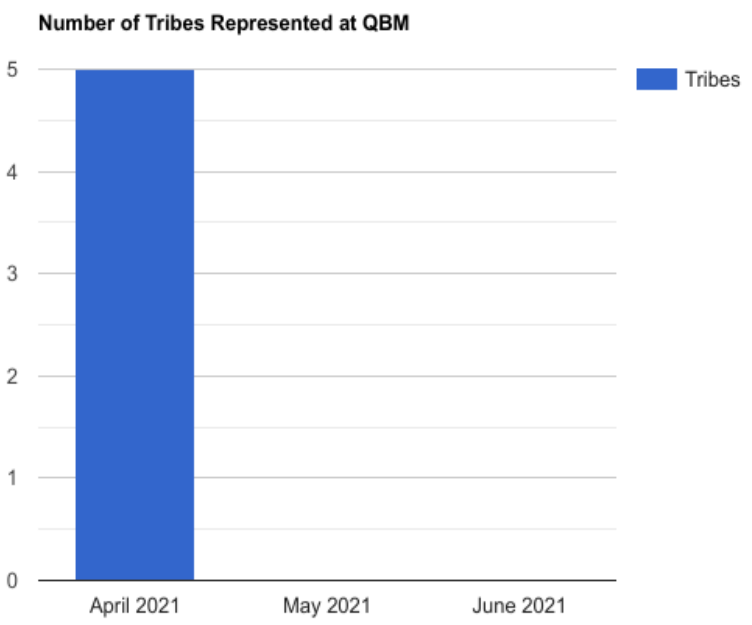

## LEADERSHIP

**Be a national leader in tribal public health initiatives and support health infrastructure development for our member tribes.**

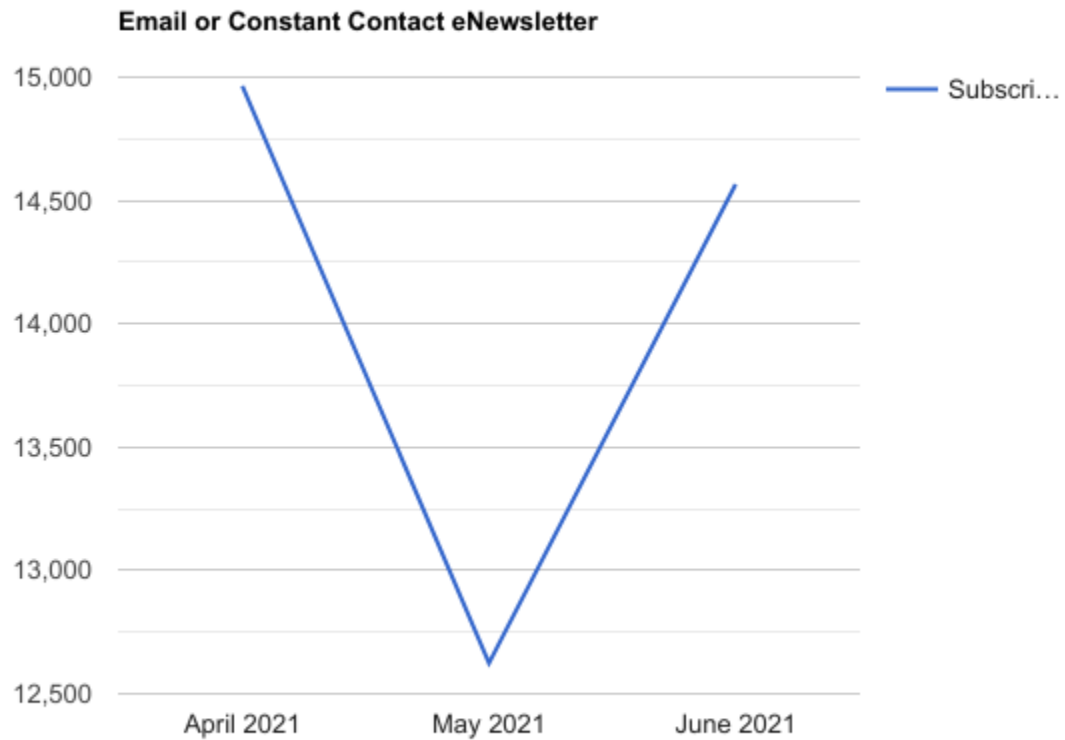

During this period, the NPAIHB hosted 1 Quarterly Board Meeting to facilitate face-to-face communication and resource sharing with state and federal programs:

Date	Tribes
04/20/2021	Burns Paiute Tribe, Colville Tribes, Confederated Tribes of Coos, Lower Umpqua, and Siuslaw Indians, Confederated Tribes of the Umatilla Indian Reservation, Coquille Tribe, Cow Creek Band of Umpqua, Cowlitz Tribes, Grand Ronde Tribes, Jamestown S'Klallam Tribe, Kalispel Tribe, Klamath Tribes, Kootenai Tribe, Lower Elwha Klallam Tribe, Lummi Nation, Makah Tribe, Muckleshoot Tribe, Nez Perce Tribe, Nooksack Tribe, Quinault Indian Nation, Samish Indian Nation, Shoalwater Bay Tribe, Shoshone-Bannock Tribes, Siletz Tribes, Skokomish Tribe, Snoqualmie Tribe, Spokane Tribe, Swinomish Tribe, Upper Skagit Tribe, Warm Springs Tribes

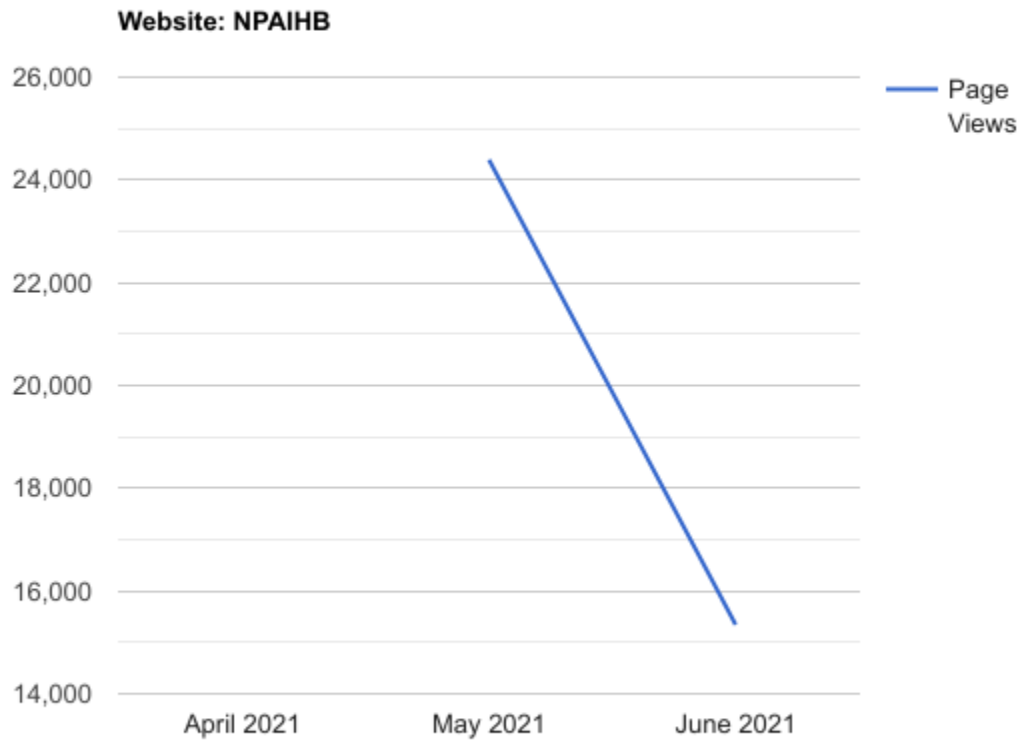

During this period, the NPAIHB utilized the following communication channels to inform the NW Tribes about emerging public health topics and strategies to improve healthcare delivery in tribal settings:

Email or Constant Contact eNewsletter		
Date	Campaign	Subscribers
06/11/2021	Opioid Community (154-00)	132

05/01/2021 - 06/01/2021	NPAIHB	19624	39738	23508

### Capacity Building

During this period, the NPAIHB provided 184 NW Tribes with capacity building assistance (including training, technical assistance, and resource development) on healthcare management principles and Information Technology.

- ECHO Training or Clinical Consultation (Goal 1) = 47
- TA on Clinical support (Goal 1) = 46
- TA on Healthcare management (Goal 1) = 4
- TA on IT assistance (Goal 1) = 5

## Grant Writing

During this period, the NPAIHB researched health-related funding opportunities, disseminated funding announcements to member tribes, and educated federal agencies on strategies to ensure that federal funding opportunities align with the priorities, needs, and organizational capacities of the NW Tribes.

Date	Grant
04/01/2021	NW Tribal EPI Infrastructure Opioid Supplement (133-78)
04/05/2021	TEC-PHI Base and Opioid Supplement APR and continuation applications
04/19/2021	49 Days of Ceremony 4th year continuation grant
04/20/2021	CDC 1803 Data Linkage Supplement
04/23/2021	BHA HRSA OIFSG BHA Education Didgwalic & Yakama
05/08/2021	NW Tribal EPI Infrastructure Opioid Supplement (133-78)
06/07/2021	CDC 1803: Improving Tribal Data Sharing Capacity

## Staff Development and Support

During this period, the NPAIHB built a strong organizational infrastructure by recruiting and retaining high-quality staff, by encouraging their ongoing education and training, and by actively implementing the organization's mission and values to provide employees with comprehensive wellness benefits.

Staff Trainings	
Date	Description
04/05/2021	Preventing Harassment and Discrimination in the Workplace
04/05/2021	Preventing Bullying in the Workplace
04/01/2021	Budgets, microix, sub-awards, RFAs

## Youth Development

During this period, the NPAIHB helped develop tribal youth into future leaders in healthcare by making NPAIHB meetings and trainings accessible to youth, and by offering internships to interested students.

## PARTNERSHIPS

**Strengthen regional and national partnerships to ensure tribal access to the best possible health resources and services.**

During this period, the NPAIHB built and maintained effective, collaborative relationships with 118 current and potential partners, including the NW Tribes, the Indian Health Service, Indian organizations, Federal agencies, State Health Departments, Universities, funding agencies, community-based organizations, and other interdisciplinary social service providers that promote AI/AN health.

## POLICY AND LEGISLATION

### Maintain leadership in the analysis of health-related budgets, legislation, and policy.

During this period, the NPAIHB facilitated communication among Tribes, Federal and State agencies, and Congress to support tribal sovereignty, promote self-determination, and ensure that government-to-government consultation occurs on health-related budgets, legislation, policies, and services.

During this period, the NPAIHB remained at the forefront of budgetary, legislative, and policy initiatives affecting the NW Tribes, including the President's annual budget, national healthcare reform initiatives, IHS policies and strategies, and proposed changes to Medicare and Medicaid and assessed their impact on the Northwest Tribes.

---

## HEALTH PROMOTION

### Support health promotion and disease prevention activities occurring among the Northwest Tribes.

During this period, the NPAIHB provided the following capacity building assistance (including training, technical assistance, and resource development) on priority health promotion and disease prevention topics.

#### Cumulative Health Promotion Activities:

- Calls: 80
- Meetings (external): 82
- Number of presentations provided: 18
  - Number of presentation attendees: 1406
- Number of trainings provided: 27
  - Number of training attendees: 112
- Webinar or Zoom: 223

#### Training on Health Promotion and Disease Prevention Topics:

**Technical Assistance on Health Promotion and Disease Prevention Topics:**

**NW Tribal Site Visits**

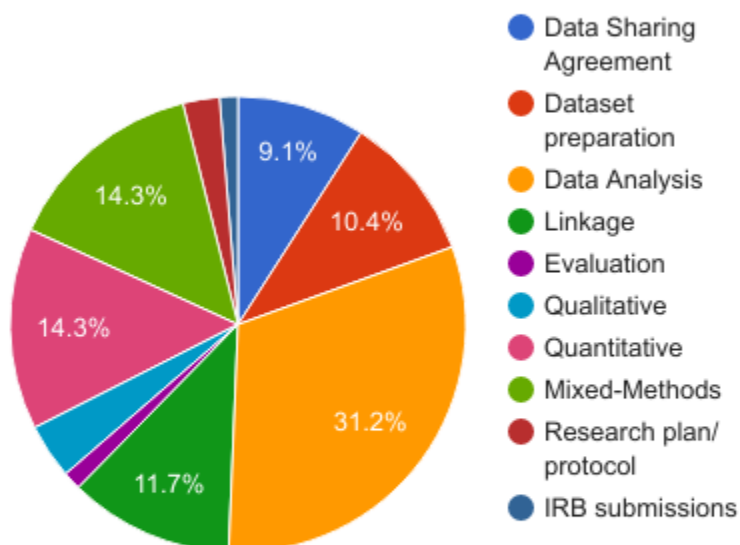

Date	Project	Tribe
04/01/2021	ECHO Project (000-01)	Lummi Nation

---

## RESEARCH AND SURVEILLANCE

### Support and conduct culturally-appropriate health research and surveillance in partnership with the Northwest Tribes.

During this period, the NW Tribal EpiCenter responded to the needs and interests of the NW Tribes by obtaining regular feedback and guidance from tribal advisory groups, target audience members, and key personnel during all phases of the research process, and by conducting an annual survey to prioritize public health topics, capacity building needs, and research activities. During this period, the NW Tribal EpiCenter assessed the health status and health needs of the NW Tribes by conducting culturally-appropriate research and by accessing new and existing AI/AN health data.

## Reports, Articles and Publications

During this period, the NW Tribal EpiCenter communicated the results of its research, surveillance, and capacity building activities to appropriate stakeholders. This information was designed to: 1) assist the NW Tribes in their community outreach activities, public health planning, and policy advocacy; 2) share important findings across Indian Country and extend the scholarly AI/AN research agenda; and 3) increase public awareness about the function and benefits of Tribal EpiCenters.

### Portland Area IHS Institutional Review Board

During this period, the NW Tribal EpiCenter protected the rights and wellbeing of the NW Tribes and tribal research participants by using and housing the Portland Area IHS Institutional Review Board (IRB). The IRB and EpiCenter projects will recognize tribal research methods and requirements and will work to ensuring tribal ownership of resultant data.

### Epi Surveillance TA Requests

During this period, the NW Tribal EpiCenter provided 5 NW Tribes with capacity building assistance (including training, technical assistance, and resource development) on epidemiologic skills and research methods.
