• Sign in, using chat box, with your tribe/organization and names of all participants
• Use the chat box for questions, for Q&A after updates and announcements
Upcoming Indian Country ECHO telehealth opportunities

- **SUD ECHO** – 1st & 3rd Thursday of every month at 11am PT
  - Thursday, December 1st at 11am PT
  - Didactic Topic: *Induction with Buprenorphine (PPW)*
  - To learn more and join: [https://www.indiancountryecho.org/program/substance-use-disorder/](https://www.indiancountryecho.org/program/substance-use-disorder/)
Northwest Tribal Dental Support Center
“Weaving oral health into healthy lives”
NW Tribal Dental Support Center

- 31/43 tribes have dental programs
- NTDSC serves 40 dental programs
- Idaho - three tribes have dental programs
  - Chemawa
  - NARA
- Oregon – seven tribes have dental programs +
  - Didgawlic
  - SIHB
  - Native Project
- Washington- 21 tribes have dental programs +
NTDSC’s Two Priority Goals:

1) Provide training, quality improvement, and technical assistance to the IHS/Tribal/Urban dental programs within the Portland Area.

2) Ensure that the services of the NTDSC result in measurable improvement in the oral health status of the AI/AN people served in the Portland Area.
Continuing Dental Education

NTDSC Objective: Provide continuing dental education (CDE) to all Portland Area dental staff at a level that approaches state requirements for Washington, Oregon, and Idaho.

- Portland Area Dental Meeting
- Virtual/On-line CDE topics
- Site Visits
- We Smile: Minimally Invasive Dentistry (MID) collaborative
- NTDSC Virtual Orientation (to come 2023)
Site Visits: Potential Topics

• Infection Control
• Prevention Program
• Clinical Efficiency
• Transitioning your Clinic
• Records and Data - Peer Review and Chart Audits
• Prepare for Accreditation
Minimally Invasive Dentistry Collaborative

We Smile: MID Style

• AIM
  • Increase access
  • Decrease disease
  • Improve patient satisfaction

• Primary Drivers
  • Delivery of Effective, Efficient and Sustainable Patient Centered Quality Care
  • Manage Disease through Evidence Based Standards of Care
  • Community Outreach
  • Building and Maintaining Trust

IHS ILI Surveillance

Percentage of Influenza-Like Illness (ILI) Visits by IHS Area
For Week Ending 11/19/22 (Week 46)
Percentage of Outpatient Visits for Respiratory Illness Reported By
The U.S. Outpatient Influenza-like Illness Surveillance Network (ILINet),
Weekly National Summary, 2022-2023* and Selected Previous Seasons

This system monitors visits for ILI (fever and cough or sore throat), not laboratory confirmed influenza and may capture patient visits due to other respiratory pathogens that cause similar symptoms.
All Reporting IHS Areas
Influenza Vaccine Coverage for all Age Groups for National and in each Area
% Seasonal Flu (At Least 1 Dose) for Active Clinical Population
07/03/22 through 11/19/22 (Week 46)

* Now 8 sites reporting
Rates of RSV hospitalization for the current season, shown in green are higher than any previously recorded season, so far, for October and November, signaling an earlier and more severe RSV season this year.
RSV Hospitalizations by age and Race/Ethnicity

Children 0-4 yrs highest rates of RSV hospitalization

AI/AN and Hispanic people have had the highest rates of RSV hospitalization this year
M-Pox — fewer than 20 cases/day since 11/10/22

As of 16 November, 2022

- WA: 658 cases
- OR: 261 cases
- ID: 15 cases

As of 28 November, 2022

- **Toolkits for Community, Work, and School** UPDATED
- **What’s New & Updated** UPDATED
Regional Verification of Measles Elimination

By the end of 2021:

- 76 (39%) countries verified as having achieved or maintained measles elimination status.
- No WHO region had achieved and sustained elimination, and no African Region country has yet been verified to have eliminated measles.
- WHO’s Region of the Americas achieved verification of measles elimination in 2016;
  - Endemic measles transmission was reestablished in Venezuela (2016) and Brazil (2018).
  - Since 2016, endemic transmission has been reestablished in eight other countries (Albania, Cambodia, Lithuania, Mongolia, Slovakia, the Czech Republic, the United Kingdom, and Uzbekistan) that had previously achieved verification of measles elimination.
State Partner Updates

• Washington
• Oregon
• Idaho
