# Information for Today's Call

## Agenda

- Welcome & Introduction: Celeste Davis
- NPAIHB Data Update: Victoria Warren-Mears
- Portland Area IHS Update: Marcus Martinez, Geniel Harrison, Thomas Weiser
- State Partner Updates:
  - Washington
  - Oregon
  - Idaho

## Guidelines

- Please place yourself on mute unless speaking
- Sign in, using chat box, with your tribe/organization and names of all participants
- Use the chat box for questions, for Q&A after updates and announcements

## Upcoming Indian Country ECHO telehealth opportunities

- **NW Elders, Knowledge Holders and Culture Keepers ECHO** – 2<sup>nd</sup> Tuesday of every month at 12pm PT
  - Tuesday, January 10<sup>th</sup> at 12pm PT
  - Didactic Topic: *Culturally Affirming Practices: Transforming Healthcare of Indigenous People*
  - To learn more and join: <https://www.indiancountryecho.org/program/nw-elders-knowledge-holders-and-culture-keepers/>
- **Trauma Care ECHO** – 2<sup>nd</sup> Wednesday of every month at 6:30am PT
  - Wednesday, January 11<sup>th</sup> at 6:30am PT
  - Didactic Topic: *SBIRT in Trauma: Alcohol Attributable Injuries*
  - To learn more and join: <https://www.indiancountryecho.org/program/trauma-care/>
- **Oral Health ECHO** – 2<sup>nd</sup> Wednesday of every month at 12pm PT
  - Wednesday, January 11<sup>th</sup> at 12pm PT
  - Didactic Topic: *Minimally Invasive Dentistry: When and how to restore*
  - To learn more and join: <https://www.indiancountryecho.org/program/oral-health-echo-program/>

## Upcoming Indian Country ECHO telehealth opportunities

- **Journey to Health ECHO** – 2<sup>nd</sup> & 4<sup>th</sup> Thursday of every month at 7am/12pm PT
  - Thursday, January 12<sup>th</sup> at 7am PT
  - Didactic Topic: *Residential Schools and American Indian/Alaska Natives: Impact of Forced Separation and Relocation on Children and Youth*
  - To learn more and join: <https://www.indiancountryecho.org/program/journey-to-health-echo-program/>
- **Dementia ECHO** – 2<sup>nd</sup> Thursday of every month at 11am PT
  - Thursday, January 12<sup>th</sup> at 11am PT
  - Didactic Topic: *Aging Advocacy and Lived Experience of a Dementia Diagnosis*
  - To learn more and join: <https://www.indiancountryecho.org/program/dementia-echo-program/>
- **Diabetes ECHO** – 2<sup>nd</sup> Thursday of every month at 12pm PT
  - Thursday, January 12<sup>th</sup> at 12pm PT
  - Didactic Topic: *SGLT2 Inhibitors – Increasing Confidence in Prescribing*
  - To learn more and join: <https://www.indiancountryecho.org/program/diabetes/>

# Tribal Subaward Request for Proposals

- NPAIHB's Public Health Improvement & Training (PHIT) project has funding available for tribal subawards to strengthen public health systems and enhance delivery of the [10 Essential Public Health Services](#)
- Up to \$30,000 per tribe to at least 3-5 Northwest Tribes
- Rolling applications; submit by January 20, 2023 for priority consideration
- Q&A sessions:
  - January 10, 2023, 3:00-3:30 PM Pacific [via Zoom](#)
  - January 12, 2023, 1:00-1:30 PM Pacific [via Zoom](#)
- Download [application](#) or contact Valorie Gaede at [vgaede@npaihb.org](mailto:vgaede@npaihb.org)

# Trend Summary Statements through 12/29/22 for COVID-19

- Idaho: A clear trend is difficult to discern in the AI/AN population, and reported cases have fluctuated between 20-25 cases per week. Cases in the total population were increasing before the last few weeks of the year, which may be affected by incomplete data.
- Oregon: In both the AI/AN and total population, reported Covid-19 cases appeared to be decreasing since the end of November.
- Washington: After decreasing during the month of November, AI/AN Covid-19 cases were increasing during the early part of December. Cases in the total population have been increasing since the middle of November.

# Washington COVID-19 Data

## Characteristics of COVID-19 Cases through 12/29

### EpiCurve of COVID-19 Cases by Week

Race	N	%
AI/AN	32,230	1.7%
Non-AI/AN	563,351	29.8%
Unknown	1,296,970	68.5%
<b>Total</b>	<b>1,892,551</b>	<b>100.0%</b>

Case Status	AI/AN	State Total
Laboratory Confirmed	83.8%	85.4%
Probable	16.2%	14.6%

Sex	AI/AN	State Total
Male	45.7%	47.1%
Female	51.4%	50.5%
Other	0.0%	0.0%
Missing/Unknown	2.8%	2.4%

Age Group	AI/AN	State Total
0-9	10.2%	9.5%
10-19	17.0%	13.0%
20-29	19.1%	18.2%
30-39	18.6%	18.2%
40-49	13.3%	14.1%
50-59	10.5%	11.5%
60-69	6.6%	8.1%
70-79	3.4%	4.5%
80+	1.3%	2.8%
Missing	0.0%	0.1%

Hospitalization Status	AI/AN	State Total
Hospitalized	58.6%	57.6%
Not Hospitalized	0.5%	0.4%
Unknown	40.9%	42.0%

# Data Notes

- **Data Source: CDC's COVID-19 Case Surveillance and Vaccination Data, accessed through the HHS Protect System**
- **Data Notes for Case Data:**
  - Data include probable and laboratory confirmed cases of SARS-CoV-2 reported to CDC by state health departments
  - AI/AN cases include all records where the variable race\_aian = "Yes"
  - Data are restricted to cases among residents of Idaho, Oregon, and Washington

# Plan Going Forward:

- We will continue to monitor COVID-19 data and presentation of this data will be at least once a month.
- We will present more frequently if concerning trends are observed.
- Kudos to our biostats team for their tracking of this data throughout the pandemic.

# Portland Area IHS COVID -19 Update

## US WEEKLY CASES

## REGION 10 WEEKLY CASES

# COVID-19

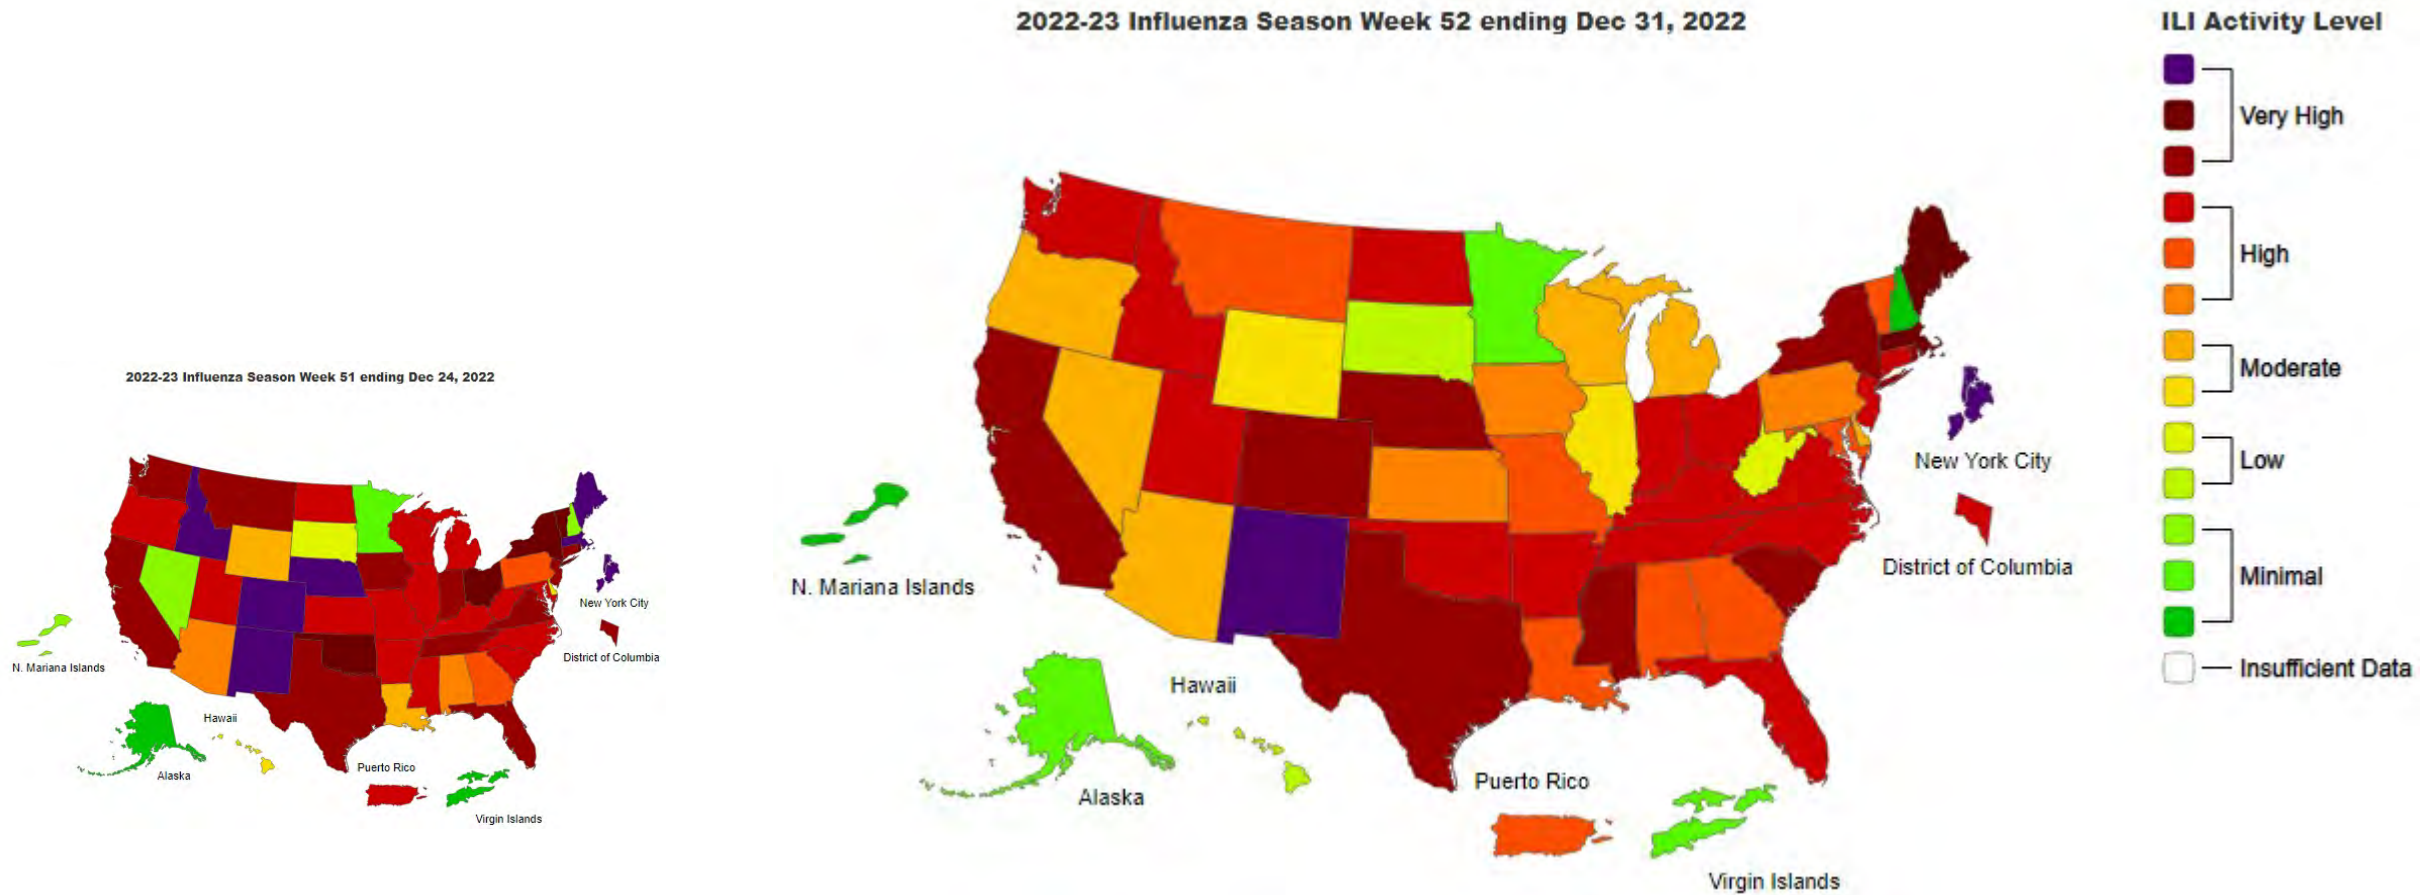

---

## Omicron XBB.1.5 (nick named “Kraken”)

- Emerged as a result of two earlier versions of Omicron BA.2.10 and BA.2.75
- The most transmissible form of Omicron to date
- Tightly latch onto cells (high affinity to bind and infect cells)
- Symptoms: body aches and congestion (most common) but can expect similar COVID symptoms
- Mutations helped it evade immunity (natural or vaccination)
- Monoclonal antibodies have been ineffective against current COVID variants
- Severity: unable to ascertain at this time
- Vaccine protection: boosters will offer some protection against severe disease
- Treatment: Paxlovid will be effective at treating infections with XBB.1.5

# Influenza

# Percentage of Outpatient Visits for Respiratory Illness Reported By The U.S. Outpatient Influenza-like Illness Surveillance Network (ILINet), Weekly National Summary, 2022-2023\* and Selected Previous Seasons

## Influenza Positive Tests Reported to CDC by U.S. Public Health Laboratories, National Summary, October 2, 2022 – December 31, 2022

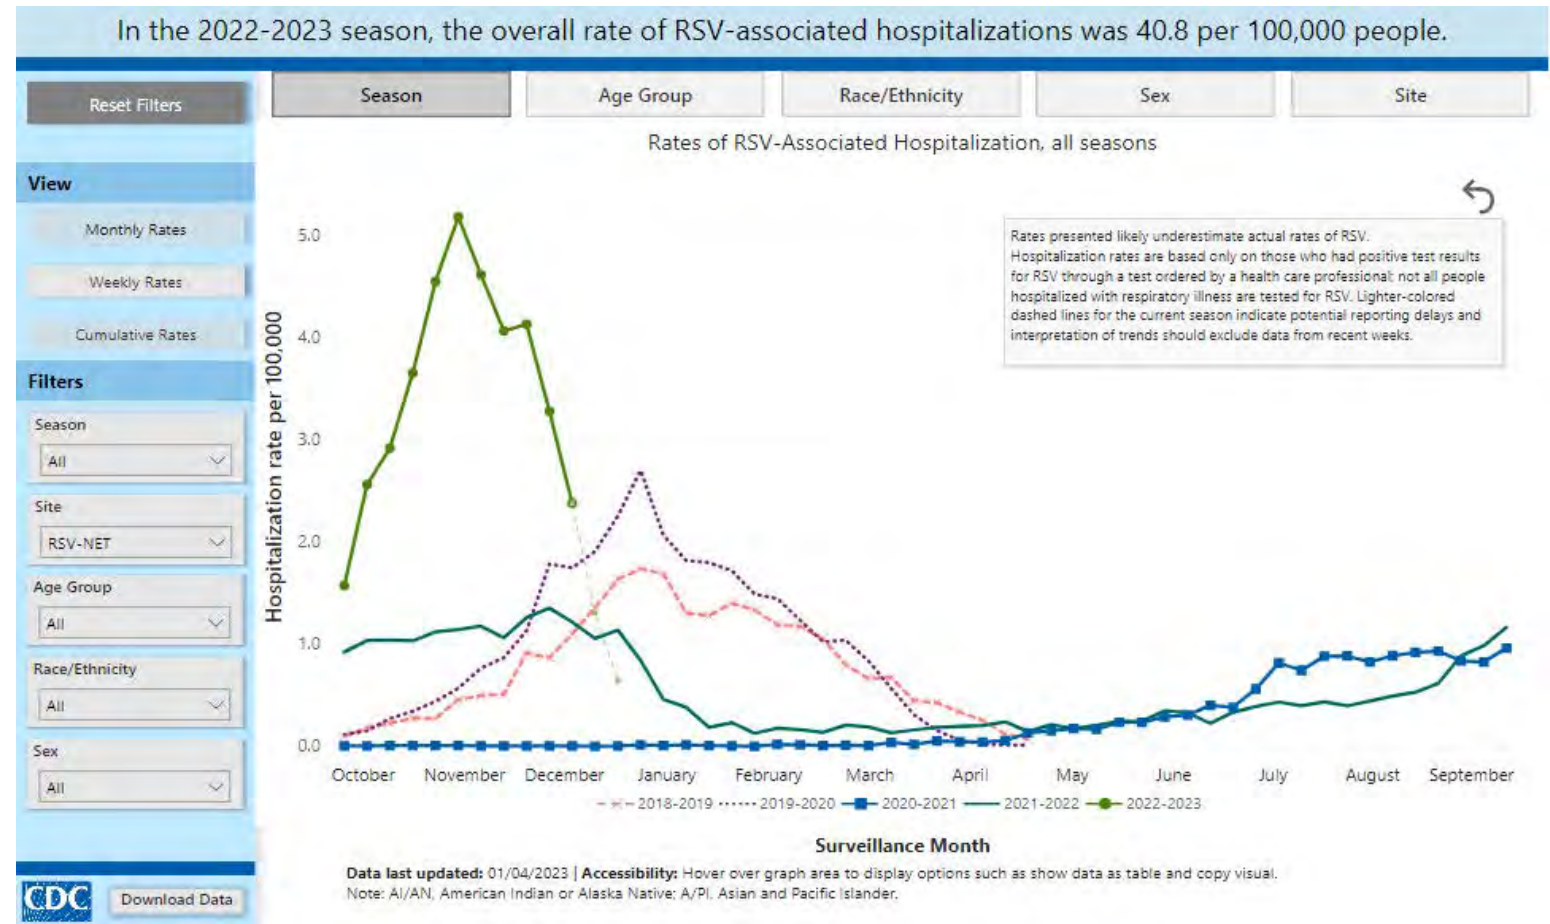

# CDC RSV-NET Interactive Dashboard

[RSV-NET Interactive Dashboard | CDC](#)

In the 2022-2023 season, the overall rate of RSV-associated hospitalizations was 40.8 per 100,000 people.

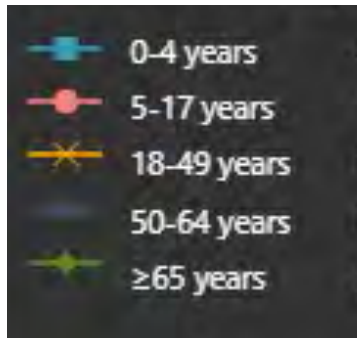

Rates of RSV hospitalization for the current season, shown in green were higher than any previously recorded season in October and November.

This is the 5th consecutive week of decrease.

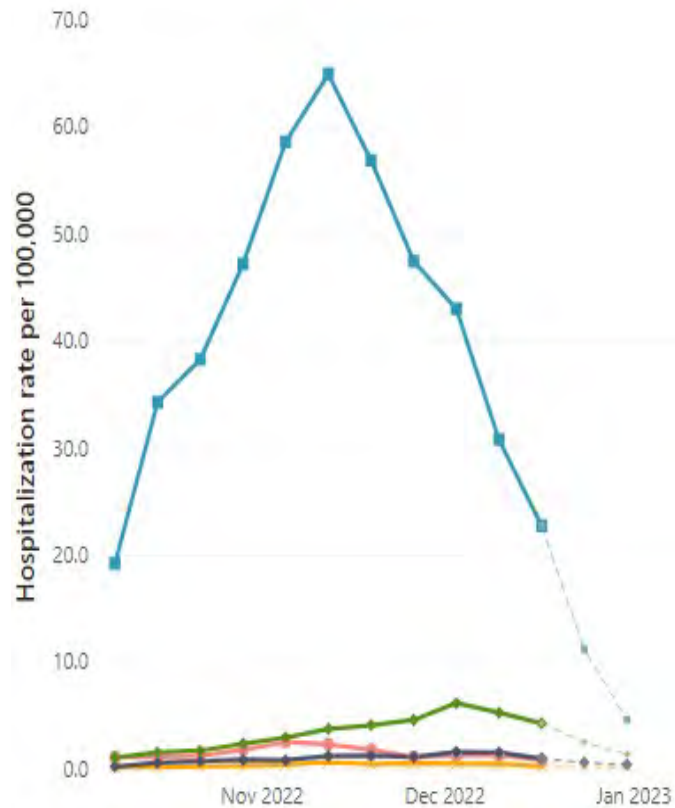

# RSV Hospitalizations by age and Race/Ethnicity

Children 0-4 yrs highest rates of RSV hospitalization

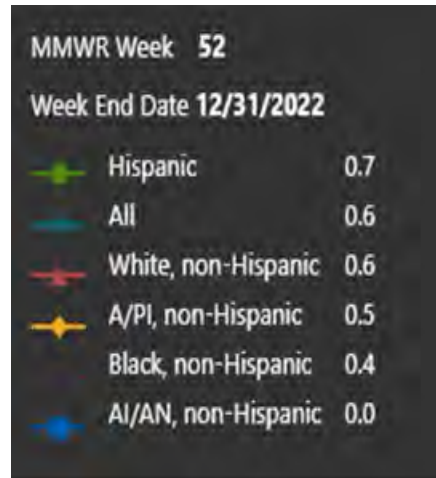

RSV Hospitalization Rates by Age

RSV Hospitalization Rates by Race and Ethnicity

AI/AN and Hispanic people have had the highest rates of RSV hospitalization this year

# State Partner Updates

- Washington
- Oregon
- Idaho

# Questions/Comments

No NPAIHB Tribal Update meeting next week, Tuesday, January 17, 2023, due to the Quarterly Board Meeting.

Thank you!
