Agenda

- **UPDATES ON CHILDHOOD VACCINES**
- **INCREASING VACCINE CONFIDENCE**
- **PROVIDER AND CLINIC SUPPORT**
- **EDUCATOR AND STAFF TRAINING**
- **PEER SUPPORT TRAINING**
- **PSAs AND SOCIAL MEDIA POSTS**

UPDATES ON CHILDHOOD VACCINES

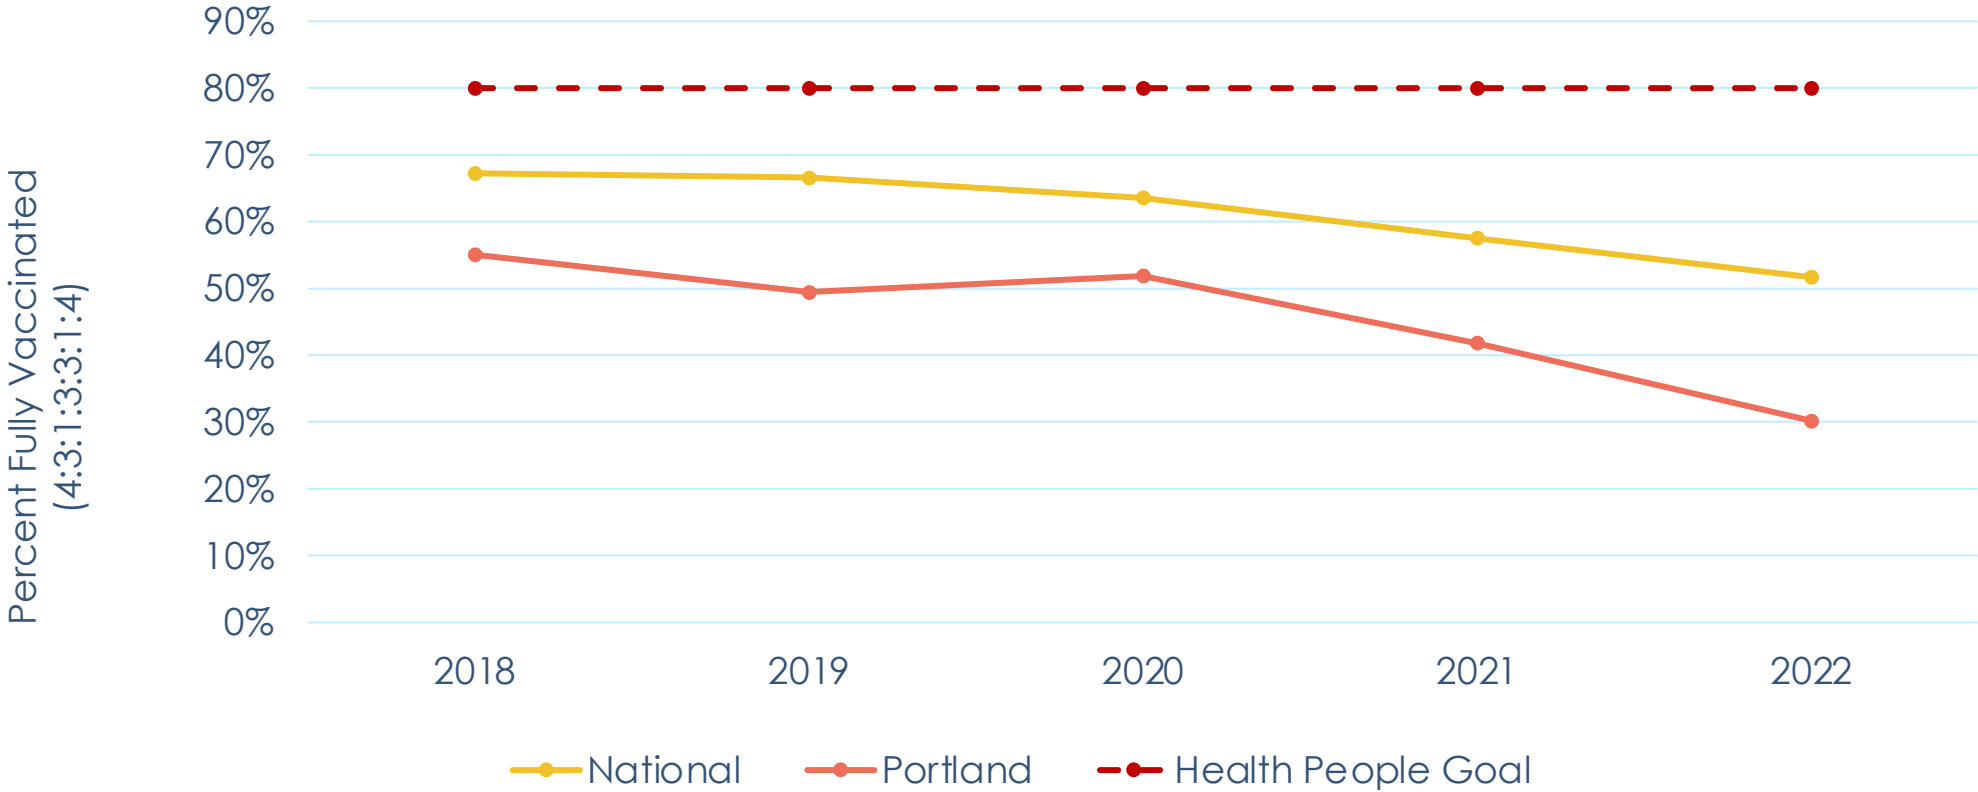

COVID-19 pandemic fuels largest continued backslide in vaccinations in three decades

WHO and UNICEF sound the alarm as new data shows global vaccination coverage continued to decline in 2021, with 25 million infants missing out on lifesaving vaccines

14 July 2022

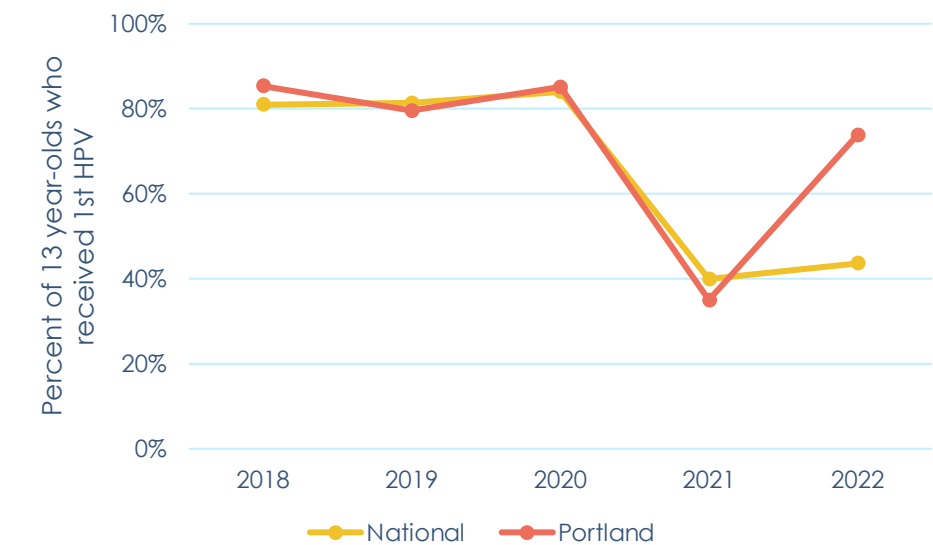

Decreased 2 year old Immunization Coverage

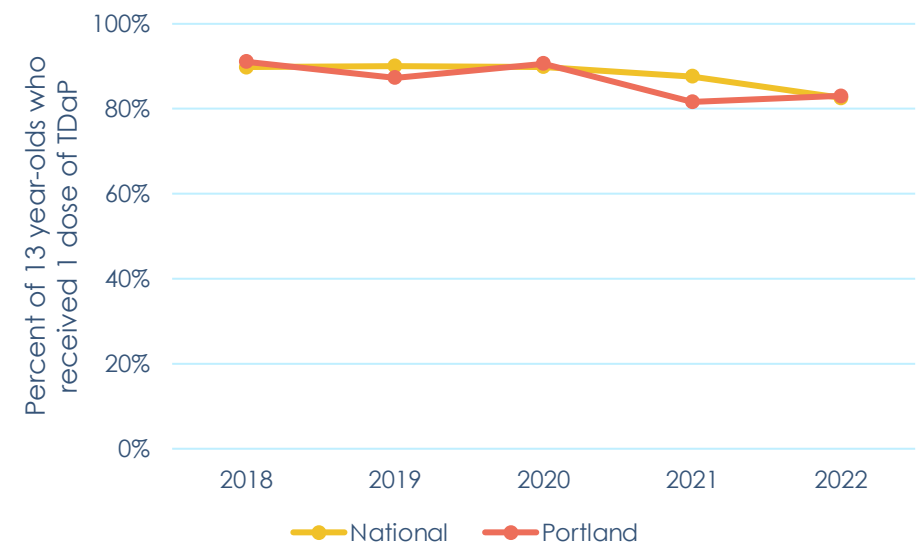

Data source: IHS National Immunization reporting System

Adolescent Immunization Coverage

HPV initiation among 13 year olds

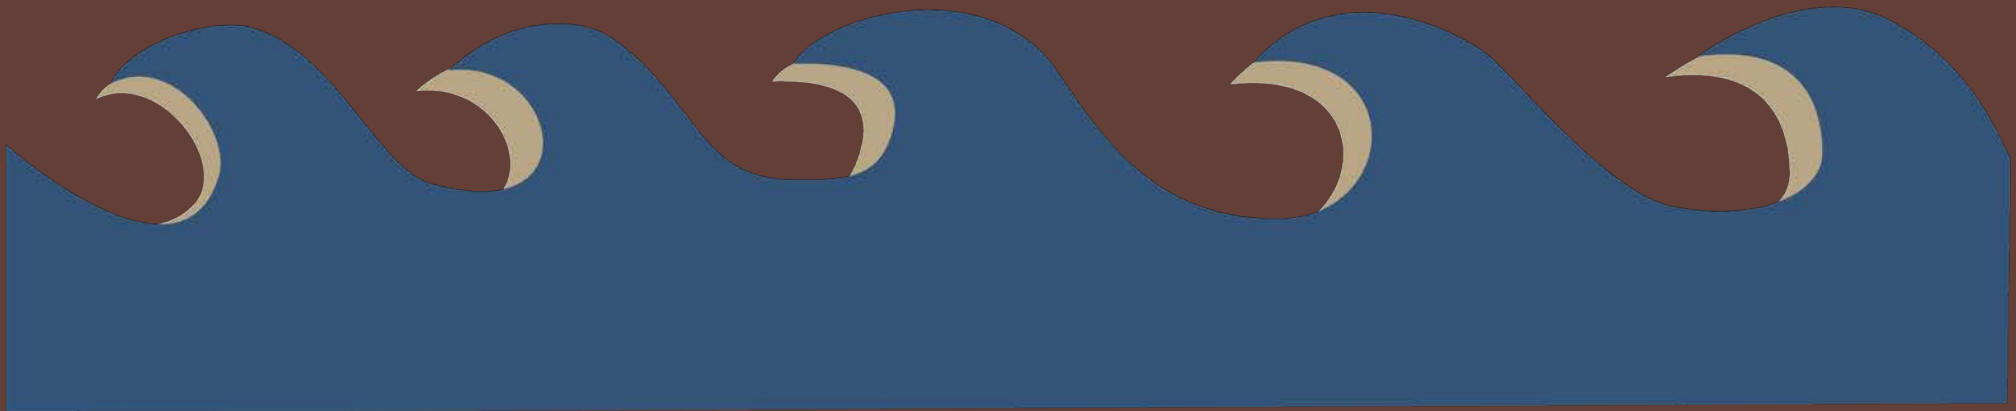

Tdap coverage among 13 year olds

Data source: IHS National Immunization reporting System

Increasing Vaccine Confidence

WHAT IS VACCINE CONFIDENCE?

VACCINE CONFIDENCE IS THE TRUST THAT PATIENTS, PARENTS, OR HEALTHCARE PROFESSIONALS HAVE IN:

- RECOMMENDED VACCINES
- PROFESSIONALS WHO ADMINISTER VACCINES
- PROCESSES AND POLICIES THAT LEAD TO VACCINE DEVELOPMENT, LICENSURE, MANUFACTURING, AND RECOMMENDATIONS FOR USE

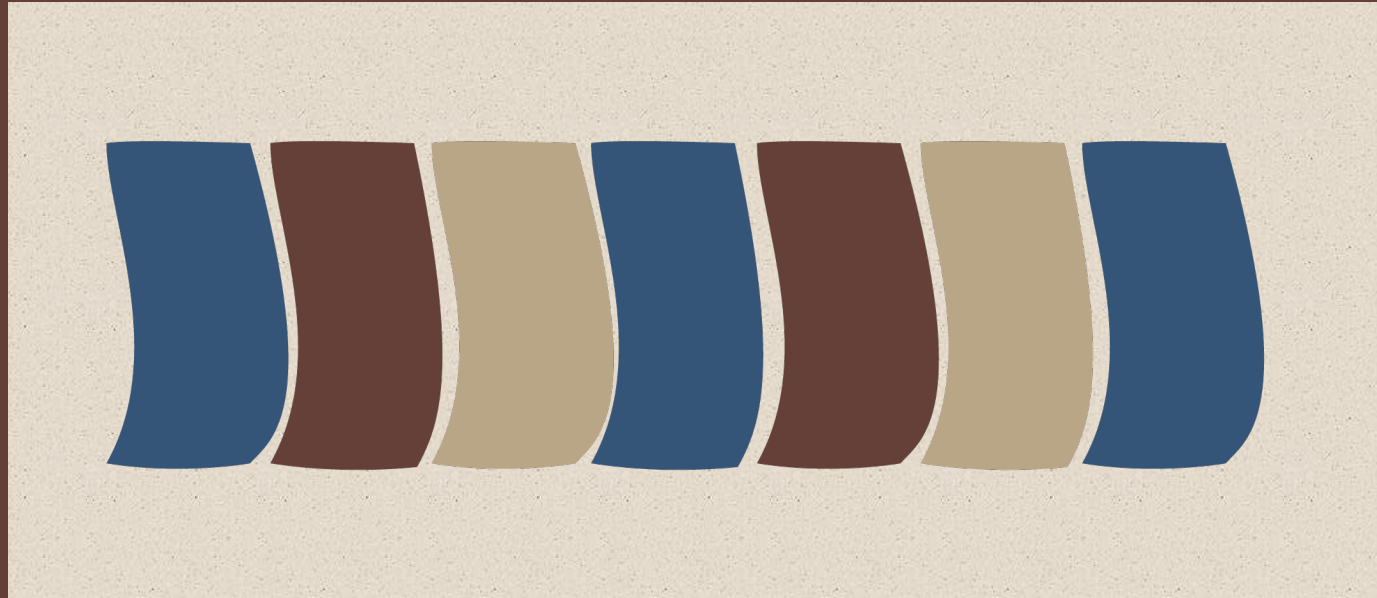

BUILDING VACCINE CONFIDENCE USING MOTIVATIONAL INTERVIEWING TECHNIQUES

.....

- **Use open-ended questions** to promote dialogue. Ask about readiness to vaccinate their child and what questions or concerns they may have.
- **Paraphrase** any information shared to show that you have heard and understood it.
- **Praise measures already taken** to protect their children, like keeping up-to-date with other vaccinations.
- Then **frame** vaccination as a safe and effective way to help protect them from serious disease.
- **Ask for permission** to share more information on vaccines. This will foster openness and connection.
- Help them make a **plan** to get their child vaccinated.

Provider and Clinic Support

Resources for clinics

- TRAIN CLINICIANS AND STAFF
- CREATE UNIQUE MATERIALS
- DEVELOP RELEVANT MEDIA MESSAGES
- PSAS FOR GOOD HEALTH TV

Educator and Staff Training

SUPPORT VACCINATION

.....

What is VacciNative?

What is TEC-IVAC?

- Tribal Epidemiology Center Consortium to Increase Vaccination Coverage Across American Indian and Alaska Native (AI/AN) Adult Populations Currently Experiencing Disparities.

What is VacciNative?

- VacciNative is the collaborative campaign that came created by TEC-IVAC

VacciNative

- **VacciNative** is a national campaign that offers accurate vaccine information for Native people by Native people!
 - Presentations
 - Social media posts
 - Insightful videos
 - Educational flip chart
 - Newsletter templates
 - Fact sheets

Participating Tribal Epi Centers

OKLAHOMA AREA
Tribal Epidemiology Center

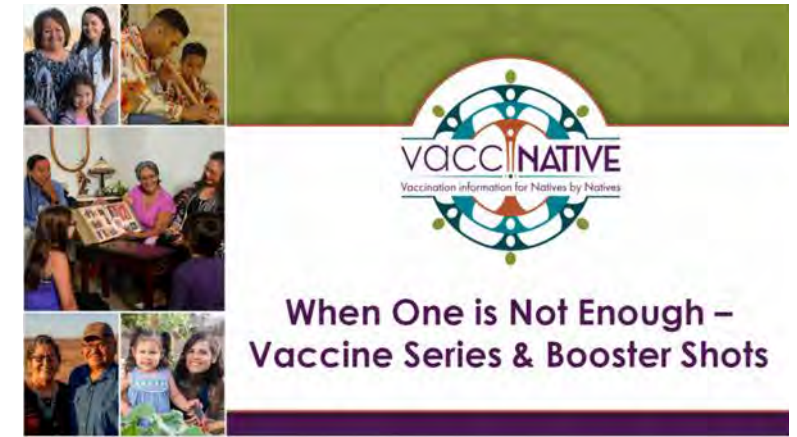

Program Goals/Objectives

1. Coordinate & Advise on vaccination activities with the 12 TECs
2. Develop and Deploy vaccination educational campaign
3. Enhance the resources and evidence base
4. Provide data and insights detailing barriers to vaccine uptake, drivers of hesitancy, influential community messengers, acceptable approaches to improve availability, accessibility and acceptability
5. Increase vaccination opportunities and enhance provider partnership: Build partnerships between vaccination providers and the community

VacciNative Media Products

- Fact sheets

VacciNative

Protecting One Another

To thrive our communities have worked hard to protect each member, including our most vulnerable. Today, one way we can protect ourselves and others is by getting vaccinated.

This site contains materials by VacciNative – a national alliance of Elders, clinicians, and public health professionals dedicated to sharing accurate vaccine information for Native people by Native people.

To learn more about the [VacciNative Alliance](#) or if you have questions, email us at VacciNative@npaihb.org.

Learning more about Canoe Journey

- **Who can come?**
 - The canoe carries the family and each canoe family can decide who they invite
- **When is the journey?**
 - Host tribes sets the arrival date and then we plan backwards where each canoe joining
- **What time do the canoes arrive?**
 - Usually in late afternoon depending on weather, currents and how tired. Radio updates are given from support canoe. We are just grateful they arrive safely.
