Tribal Community Health Provider Program | Community Health Aide/Practitioner

CHARC Purpose

CHARC is a subcommittee of the Portland Area CHAP Certification Board that advises Tribal Community Health Provider Program and CHA/P education sites in matters of Community Health Aide/Practitioner Basic Education, including curriculum, eCHAMP, clinical training, credentialing, continuing education and standards.

- To develop, implement, and evaluate all training curricula for the Community Health Aide (CHA) and Community Health Practitioner (CHP).
- To oversee and periodically review the electronic Community Health Aide Manual for Practice (eCHAMP) and all other reference materials generic to the program.
- To review and make recommendations on all permanent catalog courses for Community Health Aide/Practitioner instruction through the NPAIHB or other accredited postsecondary educational institution.
- Maintain a relationship with a higher education institution for curriculum expertise.
- To develop a uniform process for the achievement and maintenance of competence and credentialing of the Community Health Aide/Practitioner.
- To make recommendations regarding the establishment of standards for Community Health Aide/Practitioner education in the Portland Area and the Portland Area CHAP Certification Board (PACCB).
- To advise the PACCB in matters of Community Health Aide/Practitioner Basic Education and continuing education.
- To make recommendations to the PACCB regarding the establishment of guidelines for clinical training and supervision of CHA/Ps
