

Geographic Region	Data Source/Provider	Dataset	Data Type	Data Description	NWTEC Data Uses	Update Frequency	Linkage Corrected?†
ID	Idaho Department of Health and Welfare	Idaho Birth Certificates	Birth	Births that occur in Idaho; used for assessment of maternal and child health, including indicators such as maternal prenatal care access and usage, pregnancy risk factors, infant health outcomes (prematurity, low birth weight, birth defects)	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
ID	Idaho Hospital Association	Cancer Data Registry of Idaho	Cancer	Cancers diagnosed in Idaho; used to assess of cancer incidence, prevalence, survival, and other measures of cancer burden and outcomes	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
ID	Idaho Department of Health and Welfare	Idaho Death Certificates	Death	Deaths that occur in Idaho; used to assess leading causes of death, life expectancy, disparities in mortality outcomes, and other outcomes	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
ID	Idaho Hospital Association	Idaho Time Sensitive Emergency System - Trauma	Injury	Traumatic injuries that occur in Idaho; used to assess types, causes, treatment, and outcomes of traumatic injuries, improve timeliness and quality of care	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes

Geographic Region	Data Source/Provider	Dataset	Data Type	Data Description	NWTEC Data Uses	Update Frequency	Linkage Corrected?†
ID	Idaho Hospital Association	Idaho Time Sensitive Emergency System - STEMI	Chronic Disease	ST-Segment Elevation Myocardial Infarctions that occur in Idaho; used to assess burden, treatment, and outcomes of STEMIs, improve timeliness and quality of care	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
ID	Idaho Hospital Association	Idaho Time Sensitive Emergency System - Stroke	Chronic Disease	Strokes that occur in Idaho; used used to assess burden, treatment, and outcomes of strokes, improve timeliness and quality of care	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
ID	Idaho Department of Health and Welfare	ESSENCE	Syndromic Surveillance	Idaho emergency department visits; used for timely monitoring of outbreaks, illnesses, and emergency department utilization for various causes	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	On-demand, near real time	No
OR	Oregon Health Authority	Oregon State Cancer Registry	Cancer	Cancers diagnosed in Oregon; used for assessment of cancer incidence, prevalence, survival, and other measures of cancer burden and outcomes	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes

Geographic Region	Data Source/Provider	Dataset	Data Type	Data Description	NWTEC Data Uses	Update Frequency	Linkage Corrected?†
OR	Oregon Health Authority	Oregon ALERT Immunization Information System	Immunization	Immunizations administered to AI/AN individuals in Oregon	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	As needed	Yes
OR	Oregon Health Authority	Oregon Birth Certificates	Birth	Births that occur in Oregon; used for assessment of maternal and child health, including indicators such as maternal prenatal care access and usage, pregnancy risk factors, infant health outcomes (prematurity, low birth weight, birth defects)	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
OR	Oregon Health Authority	Oregon Death Certificates	Death	Deaths that occur in Oregon; used for assessment of leading causes of death, life expectancy, disparities in mortality outcomes, and other outcomes	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
OR	Oregon Health Authority	Oregon Matched Infant Birth-Death Records	Death	Matched birth-death records in Oregon; used for infant mortality analyses	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes

Geographic Region	Data Source/Provider	Dataset	Data Type	Data Description	NWTEC Data Uses	Update Frequency	Linkage Corrected?†
OR	Oregon Health Authority	Oregon Fetal Death Records	Death	Fetal deaths that occur in Oregon; used for maternal and child health analyses	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
OR	Oregon Health Authority	Oregon Orpheus (Reportable conditions excluding HIV)	Communi cable Disease	Reportable conditions diagnosed in Oregon; used to assess incidence of reportable conditions	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
OR	Oregon Health Authority	Oregon HIV	Communi cable Disease	HIV diagnoses in Oregon; used to assess incidence, prevalence, treatment outcomes, and control/progression of HIV disease	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
OR	Oregon Health Authority	Oregon Sexually Transmitted Infections	Communi cable Disease	Sexually transmitted infections diagnosed in Oregon; used to assess incidence, treatment, and outcomes of chlamydia, gonorrhea, syphilis, and other STIs	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes

Geographic Region	Data Source/Provider	Dataset	Data Type	Data Description	NWTEC Data Uses	Update Frequency	Linkage Corrected?†
OR	Oregon Health Authority	Oregon Blood Lead Testing	Environmental Health	Blood lead testing results in Oregon; used to assess characteristics and circumstances surrounding cases of elevated blood lead levels	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
OR	Oregon Health Authority	Oregon Tuberculosis (TB) Cases	Communicable Disease	TB diagnoses in Oregon; used to assess incidence of TB diagnoses	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
OR	Oregon Health Authority	Oregon Pesticide Poisoning Data	Environmental Health	Pesticide poisoning reports in Oregon; used to assess reported cases of pesticide poisoning	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
OR	Oregon Health Authority	Oregon Hospital Discharge	Hospital Discharge	Hospital discharges in Oregon; used to assess causes, characteristics, and outcomes for in-patient hospitalizations	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes

Geographic Region	Data Source/Provider	Dataset	Data Type	Data Description	NWTEC Data Uses	Update Frequency	Linkage Corrected?†
OR	Oregon Health Authority	Violent Death Reporting System	Violent Death Reporting System	Violent death reports in Oregon; used to assess incidence, circumstances, and response to violent deaths including homicides and suicides	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Not currently being updated	No
OR	Oregon Health Authority	OR BRFSS Race_Ethnicity Data file	Behavioral Risk Factors	State-level BRFSS with race and ethnicity data; used to assess risk factors, health behaviors, and health outcomes for adults	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	As needed	No
OR	Oregon Health Authority	OR BRFSS County Data File	Behavioral Risk Factors	County-level BRFSS data without race and ethnicity; used to assess risk factors, health behaviors, and health outcomes for adults	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	As needed	No
OR	Oregon Health Authority	Oregon Healthy Teens	Youth Behavior	Oregon Healthy Teens survey; used to assess risk factors, health behaviors, and health outcomes for youth	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	As needed	No

Geographic Region	Data Source/Provider	Dataset	Data Type	Data Description	NWTEC Data Uses	Update Frequency	Linkage Corrected?†
OR	Oregon Health Authority	Pregnancy Risk Assessment Monitoring System	Maternal Child Health	Oregon PRAMS survey data; used to assess maternal and infant risk factors and behaviors during and after pregnancy	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	As new data are available	No
OR	Oregon Health Authority	ESSENCE	Syndromic Surveillance	Oregon emergency department and Urgent Care Center visits; used for timely monitoring of outbreaks, illnesses, and emergency department utilization for various causes	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	On-demand, near real time	No
WA	Washington Department of Health	Washington Birth Certificates	Birth	Births that occur in Washington; used for assessment of maternal and child health, including indicators such as maternal prenatal care access and usage, pregnancy risk factors, infant health outcomes (prematurity, low birth weight, birth defects)	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
WA	Washington Department of Health	Washington State Cancer Registry	Cancer	Cancers diagnosed in Washington; used for assessment of cancer incidence, prevalence, survival, and other measures of cancer burden and outcomes	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes

Geographic Region	Data Source/Provider	Dataset	Data Type	Data Description	NWTEC Data Uses	Update Frequency	Linkage Corrected?†
WA	Washington Department of Health	Hepatitis B	Communicable Disease	Hepatitis B diagnoses in Washington; used to assess incidence and prevalence of Hepatitis B	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Pending DSA finalization	Yes
WA	Washington Department of Health	Hepatitis C	Communicable Disease	Hepatitis C diagnoses in Washington; used to assess incidence and prevalence of Hepatitis C	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Pending DSA finalization	Yes
WA	Washington Department of Health	General Communicable Diseases	Communicable Disease	General Communicable Diseases diagnosed in Washington; used to assess incidence of reportable conditions	Currently only linking to improve race data quality for the AI/AN population	Quarterly Linkages	Yes
WA	Washington Department of Health	Covid-19	Communicable Disease	Covid-19 diagnoses in Washington; used to assess incidence of Covid-19 diagnoses	Currently only linking to improve race data quality for the AI/AN population	Quarterly Linkages	Yes
WA	Washington Department of Health	Tuberculosis	Communicable Disease	TB diagnoses in Washington; used to assess incidence of TB diagnoses	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Pending DSA finalization	Yes
WA	Washington Department of Health	HIV	Communicable Disease	HIV diagnoses in Washington; used to assess incidence, prevalence, treatment outcomes, and control/progression of HIV disease	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Pending DSA finalization	Yes

Geographic Region	Data Source/Provider	Dataset	Data Type	Data Description	NWTEC Data Uses	Update Frequency	Linkage Corrected?†
WA	Washington Department of Health	Sexually Transmitted Infections	Communi cable Disease	Sexually transmitted infections diagnosed in Washington; used to assess incidence, treatment, and outcomes of chlamydia, gonorrhea, syphilis, and other STIs	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Pending DSA finalization	Yes
WA	Washington Department of Health	Washington Death Certificates	Death	Deaths that occur in Washington; used for assessment of leading causes of death, life expectancy, disparities in mortality outcomes, and other outcomes	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
WA	Washington Department of Health	Pregnancy Risk Assessment Monitoring System	Maternal Child Health	Washington PRAMS survey data; used to assess maternal and infant risk factors and behaviors during and after pregnancy	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	As new data are available	No
WA	Washington Department of Health	Healthy Youth Survey	Youth Behavior	Washington Healthy Youth Survey data; used to assess risk factors, health behaviors, and health outcomes for youth	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	As new data are available	No

Geographic Region	Data Source/Provider	Dataset	Data Type	Data Description	NWTEC Data Uses	Update Frequency	Linkage Corrected?†
WA	Washington Department of Health	BRFSS	Behavioral Risk Factors	Washington BRFSS data; used to assess risk factors, health behaviors, and health outcomes for adults	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	As new data are available	No
WA	Washington Department of Health	ESSENCE/RHINO	Syndromic Surveillance	Washington ED and health care visits; used for timely monitoring of outbreaks, illnesses, and emergency department/healthcare utilization for various causes	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	On-demand, near real time	No
WA	Washington Department of Health	Comprehensive Hospital Abstract Reporting System	Hospital Discharge	Hospital discharges in Washington; used to assess causes, characteristics, and outcomes for in-patient hospitalizations	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Annually	Yes
Regional	Indian Health Service	EpiDataMart	Clinical Encounters	National Data Warehouse extract for Portland Area; used to assess health care visits and associated causes, treatment, provision of preventive care, and other outcomes in reporting IHS, Tribal, and urban Indian clinics in the Portland Area	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Twice annually	N/A
Regional	Indian Health Service	Data for Northwest Tribal Registry	Patient Registration	National Data Warehouse extract for Portland Area; patient personal identifiers used to link to state data systems to correct misclassified AI/AN records	Used for linkages to correct misclassified AI/AN records	Annually	N/A

Geographic Region	Data Source/Provider	Dataset	Data Type	Data Description	NWTEC Data Uses	Update Frequency	Linkage Corrected?†
National	Center for Medicaid and Medicare Services	Medicare and Medicaid claims, encounters, and demographic data	Medicaid and Medicare Claims	Medicare and Medicaid claims, encounters, and demographic data; used to assess healthcare utilization, treatment, and other outcomes in the Medicare and Medicaid-enrolled population	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	As new data are available and access is approved	No
Regional	Department of Health and Human Services	Covid-19 Reported Cases and Immunizations	Communicable Disease	Data accessed through the 1 CDC Data Platform; used to assess incidence of reported Covid-19 cases and immunizations	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	Not currently being accessed	No
Regional	Centers for Disease Control and Prevention	State-level BRFSS data	Behavioral Risk Factors	Public use datasets providing state-level BRFSS data; used to assess risk factors, health behaviors, and health outcomes for adults	Responses to data requests from Tribes and other partners; Community health assessments at the Tribal, state, and regional levels, including development of Tribal-area specific dashboards in the Northwest Tribal Data Hub; Research approved by Tribal research review boards and/or the Portland Area IHS IRB or other research review boards as appropriate	As needed	No
Regional	Indian Health Service	SDPI Diabetes Annual Care and Outcomes Audit	Chronic Disease	Standards of care for patients seeking care for Type 2 Diabetes; used for patient care improvement and assessment of Type 2 Diabetes control and outcomes	Data reported to Tribes for patient care improvement	As needed	N/A

† Linkage corrected: When "Yes", indicates that the dataset has undergone a record linkage to identify and correct misclassified American Indian/Alaska Native records.
